CATALOG OF
OHIO ENCASED

Introduction

This is the fifth draft of the Ohio encased catalog. The first draft came out in the summer of 1998 and had 460 entries. The second draft came out in October 1999 with 806 entries. The third draft was finalized at the end of June 2002 with 1033 entries, including 143 pieces from Cleveland, 114 from Cincinnati, 56 from Dayton, 55 from Columbus and 50 from Toledo. When the fourth draft finished on April 1, 2019, it had 1471. This draft has 1478, including 227 from Cleveland, 156 from Cincinnati, 88 from Dayton, 83 from Columbus and 84 from Toledo. As discussed below, I count as different pieces when there are different dies used, but not when the same dies contain multiple year cents.

There are still a few Ohio pieces not listed, although I am convinced that I have identified well over half the total pieces. Keep in mind that there were not many pieces made of some issues, and they were easily lost over the many decades since they were made. I feel confident that there are at least 1800 different Ohio pieces and my best guess is that the final total will be in the neighborhood of 2000 or perhaps even more. I have now reached the point where there have been multiple "sightings" of most of the pieces. Please help by sending descriptions, rubbings or xeroxes of unlisted pieces in this catalog to the author at P.O. Box 14465, Cleveland, Ohio 44114 or email at ohioencased@gmail.com.

Introduction to Encased Generally

I will begin in this introduction by giving a very brief overview of encased coins. More details are available in several TAMS articles on encased by Michael Kolman, Bryan Ryker and me. Of particular interest is Bryan Ryker's 1995 eighty page article and catalog of Fankhauser encased, an even more extensive update in 2025, each still available from TAMS or Bryan. Much more information is available in issues 1-28 (all issues available from me) of the Casement, the quarterly publication of the Associated Collectors of Encased (ACE), founded in 1995 and folded in 2003. There also was an internet club, Encased Collectors International, at www.encasedcollectorsinternational.org., which produced a series of newsletters and other articles and information, some of which is still available on the Internet. Bruce Perdue in 2026 sends out a newsletter to a list of encased enthusiasts.

Encased coins began in 1899. There were very few encased pieces made in 1899, a few more in 1900 and then an explosion of encased came in 1901. Encased have been made in every year since. There was a second explosion of encased in 1946 following the war and then a very large number of encased produced throughout the 1950s. Less encased were produced in the 60s and still less in the 70s, 80s and 90s. In the early 2000s, I believe that only around 10-20

encased were made in any year, if that many, but then when the Penny Press Mint started making encased pieces in 2005 and ECI worked to generate interest, more pieces have been made in the mid 2000s.

Most encased are made out of aluminum. Indeed, the explosion of encased was made possible when aluminum became a cheap and abundantly available metal in the 1890s. Encased are struck by a die, with the cent or other coin placed in the middle of the planchet just prior to the striking. It is the strike that places the coin firmly in the encasement.

Before we start the catalog, we need to get some terminology straight. The side of the encasement with the advertisement or the description of the event is generally called the obverse of the encasement, because that is the side that is of the most interest to collectors of encased. The side with the good luck message is called the reverse. There is no general consensus in the hobby as to what to call the aluminum part of the encasement, but I have seen and will use either "holder" or "encasement."

In most encased coins, the obverse of the coin faces the side of the encasement with the good luck message, which as you now know from the previous paragraph is the reverse of the encasement. The reverse of the coin faces the advertisement side of the encasement. My best guess is that this is so because the good luck message side was the top die, called the hammer die, while the advertisement was the bottom or anvil die. Thus, when the operator naturally inserted the coin heads up into the blank encasement for striking, the encasement's reverse die matched the coin's obverse. For this reason, in almost all of the cases where the encasement dies are not aligned, the cent is properly oriented with the reverse of the encasement.

In a very few encased, the cent is rotated in position as to the holder. This would only occur if the operator was indifferent to the position of the cent or made a mistake on an individual encasement. Some encased that often come with rotated cents are noted in the catalog. However, because it is rare that a cent is rotated, if the cent is not oriented to the encasement, this is a warning to check a piece carefully to determine if the cent is indeed the genuine original cent struck with the encasement.

Cataloging method

The Ohio encased cataloged here are generally listed under Ohio cities, alphabetically. The Ohio encased with an unknown more specific location are listed first under "Unidentified."

I have continued to use the cataloging number method from Bryan Ryker's 1995 TAMS article, where he gave numbers to the 600+ Fankhauser encased, including forty (40) Ohio encased. There is some controversy in the hobby on this, as many prefer to use the cataloging system that has been used for many years for tokens. Indeed, if I were starting from scratch with the first published encased catalog, I would use a different numbering system. However, I believe that Bryan's method is one of a number of possible reasonable methods and I have used it in the interest of conformity.

The catalog number is given first. It consists of four items: (1) the state, (2) the city, (3) a two letter code for the merchant or event, (4) followed by a two digit number, or on

very rare occasions a three digit number. For all these encased, the state is Ohio, "OH." The city is a three letter description, usually the first three letters of the city unless two cities would otherwise have the same designation, such as Marietta (MAR), Marion (MAI), Martins Ferry (MFE) and Marysville (MAV). If parenthesis are around the state or the city, it means that place's name is not on the piece itself and has been attributed or inferred. Review the discussion on mavericks below to see how that is done.

A two letter merchant or event description follows. That is usually the first two letters of the merchant advertising on the encased or the event. If an individual is listed, such as J. Gordon Gaines, then I use the first two letters of the individual's last name. Look for the J. Gordon Gaines, Insurance piece under OH-AKR-GA-10, not -JG-10. The same is true if Associates or Sons, or some other description follows. Thus, Jane E. Condit Associates is under NY-NYC-CO-10 and C.R. Vibbard & Sons is under OH-CON-VI-10. However, if a full corporate name is given, then I will catalog the piece under the first two letters of the business, even if that is someone's first name or initials. Thus, Robert M. Slife & Associates, Inc. is under (OH)-(CLE)-RO-50 and not SL-, because the full legal name of the business is Robert M. Slife & Associates, Inc. Similarly, J.T. Weybrechts Sons Co. is under OH-ALL-JT-10, not -WE, because the full name of the business is J.T. Weybrechts Sons Co.

If there is both a merchant and a product advertised, then I usually use the merchant. For example, there are many encased pieces across the country where a shoe store also lists the type of shoes it sells. Those are listed under the merchant. An example is Juliano Shoes, a merchant from Cleveland Heights selling Goodrich PF Canvas Shoes. Look for that piece under "JU" and not "GO."

When there is a salesman and a company on a piece, I will use the company for the catalog number if I believe the address on the piece is the location of the company. I will use the salesman if I believe the address is that of the salesman. If I have no way to tell which is true, then I will assume the address is the company's location. For example, look for the two known Ohio Newton Mfg. Co. pieces under the names of the salesmen, Richard Boyd in Canton, OH-CAN-BO-10, and George O'Shea in Lorain, OH-LOR-OS-10, because the addresses on those pieces are clearly the salesmen's addresses and not the general address of Newton Mfg. (which is in Iowa).

Souvenir pieces are under "SV" and exposition pieces are under the first letter of the exposition followed by an "X" for "Exposition." Thus, the Cleveland North piece for the Buffalo Pan American Exposition is "PX."

The two digit identification number that follows starts with -10 and goes up by tens for different merchants and by twos for the same merchant. Room is being left to add new numbers when new pieces are discovered. Generally, the older encased receive the lower numbers. I have kept the same catalog numbers for the Fankhauser pieces that already have published catalog numbers, so that in those cases where an earlier merchant has the same first two letters as a Fankhauser merchant, the Fankhauser piece will still have the lower number.

After the catalog number comes the date, followed by shape and size. The coin is a U.S. cent unless otherwise noted. The metal of the holder is aluminum, unless some other

metal is described. "/" separates lines on the piece; "//" indicates that the writing has gone from above to below the cent and "\\" means turn the piece over. This is also consistent with Bryan Ryker's method, not universally accepted in the hobby.

In the drafts of this catalog, I have felt free to change the catalog number from one draft to the next to correct mistakes and to make the -10 catalog number an earlier date than the -20. I feel free to do this as the catalogs are only "drafts." Once I am comfortable enough with this catalog to call a version the "First Edition," then thereafter the catalog numbers will remain the same and I will work around the current numbers when new pieces are discovered.

Shape abbreviations:

RD = round, followed by diameter in millimeters, if known
RD-O = round, off center cent
H = horseshoe (will be noted if holed top or bottom)
SH = squat horseshoe (1901 type where the bottom is cut as opposed to curved) The squat horseshoes all have the patent date, "Pat. Apr. 11, '99" at the top of the reverse, between the KMA and the NGB. I do not list that information on each piece. The April 11, 1899 patent referred to on the squat horseshoe piece is U.S. design patent no. 30,516, for an "Advertising Medal." It was issued to John C. Bean of Lexington Massachusetts. Almost all the SH pieces have 1901 cents, although some have 1900 and 1902 and a very few legitimate 1903. I know of no legitimate pieces with cents after 1903. See, (OH)-CIN-VI-10 for a description of the three types of reverse dies known with this piece.
H-FOB = horseshoe with fob at top
W = wishbone. The wishbone piece was made by Whitehead and Hoag Company of Newark, N.J., and that company's signature is on all pieces, unless weakly struck and worn off. It was the subject of design patent no. 34,523, dated May 21, 1901, invented by Albert R. Lache and assigned to the Whitehead and Hoag Company, both of Newark. There are no legitimate dates known of the wishbone shape after 1901.
B = bell
CP-R = chamber pot hole right (as viewed from obv.)
CP-L = chamber pot hole left (as viewed from obv.); originally made by Geo. H. Jung & Co. out of Cincinnati, as evidenced by the signature on many of these pieces (see (OH)-(CIN)-CH-12); a 1913 piece had the signature of Wright (see OH-CIN-KI-10)

Reverse abbreviations --

APFOM -- A Pot Full of Money
IBGL -- I Bring Good Luck (most times, the "Good Luck" is on another line, but I do not usually use the "//")
GLKMAP -- Good Luck/ Keep Me and Prosper
GWBASD -- Go Way Back and Sit Down
IATNP – I Am the Nimble Penny
KMAAHM -- Keep Me and Always Have Money
KMAGLWF – Keep Me and Good Luck Will Follow (Penny Press Mint rev.)
KMAHGL -- Keep Me and Have Good Luck
KMANBCS -- Keep Me and Never Be Caught Short

KMANBB -- Keep Me and Never Be Broke
KMANGB -- Keep Me and Never Go Broke
KMAP -- Keep Me and Prosper
KMAYWHGL -- Keep Me and You Will Have Good Luck (usually the "have" appears on the line below
KMFGL -- Keep Me for --- Good Luck
KM/IATNP -- Keep Me, I am the Nimble Penny -- this reverse has the lucky symbols in seven compartments above the cent, starting with a horseshoe to the left of the cent, then a wishbone, clover, horseshoe, clover, wishbone and clover, it is 35mm.; there is also a IATNP reverse without the seven compartments which is 32mm.
LPPP, I'm it -- Lucky Penny/ [to left] I'm [to right] It// Pocket Piece, with crossed horseshoes, the style of the 1901 Buffalo Pan American Exposition clover leaf encased cent
* is used in the description of pieces to indicate that there is some doubt about the word, letter or number used, either because of unclear reporting, or because the only sample piece available was too worn in that spot.

Victory Reverse

The Victory Reverse is the reverse made in 1945 to celebrate victory in WWII. Victory is at the top. V-E Day May 8 is in a scroll at the bottom left, V-J Day Sept 2 is in a scroll at the bottom right and World/ Peace is at the bottom middle. This is the type 1 Victory Reverse. There is another reverse without the scrolls and with "Year" at the bottom instead of "World/Peace" but I know of no Ohio pieces with this type 2 reverse (and I am not yet 100% certain that this type 2 reverse is an original, authentic to 1945, reverse).

Acknowledgment of the Sources for the Encased Pieces -- without them this catalog would not have been possible

I would like to thank the many people who took the time to help with this catalog. Without them, the catalog would be much shorter. Some of the entries have been taken from various auction catalogs and some from Internet sales. Except for the most expensive pieces, the mail bid catalogs did not usually contain a picture of the item. In addition, the cataloger would usually just list the important information from the piece and not describe the entire piece, as I try to do here. If there are no slashes in the description of a piece in this catalog, that is because I have not seen the piece and am merely passing on the description from an auction catalog. If anyone wants to follow up on my work, most of these catalogs are available from the TAMS library.

The names of the contributors and the auction catalogs appear below, with the abbreviations that are used in this catalog to identify the source of each piece. In general, I have not seen the pieces from auction catalogs. I will not use the slashes if I do not know where the words break from examination of the piece, a picture or a firm description from a contributor.

AA -- ACE (Associated Collectors of Encased, founded in 1995 by Jerry Binsfeld) auction
AC -- from the personal collection of Anthony Chibbaro of South Carolina
ACL - from the ACE Chevy Listing by Jim Hemphill and Joel Reznick, first published in the TAMS journals of February 1989 and June 1990 and also published, with more listings, in the

Casement from Issue 4 in 1996 to 12 in 1998. Ohio was in Issue 10, November 1997. These entries were not complete and there was no indication as to the date of the cent. Joel Reznick has since provided information as to dates and more.
AE -- cataloged by Al Erickson in his saloon catalog
AJ -- from the personal collection of Alvan Jones
AM -- ACE Maverick, followed by the ACE Maverick No. in parenthesis. Descriptions of mavericks are published in the Casement and ACE members identify them in subsequent issues of the Casement. Starting in 2004, BP moved his maverick column from the Casement to NTCA, and those pieces are listed under NTCA-M followed by BP's identification number in parenthesis.
AK -- from the personal collection of Al Kohlhardt
AS -- from the personal collection of Al Schubert
AW -- from the personal collection of Alan Weinberg
AZ -- from the personal collection of Al Zaika
BK -- from the personal collection of Bob Kirk
BM -- cataloged and sold by Bob Moffatt, whose sales began Oct. 13, 1994
BP -- from the personal collection of Bob Perdue
BR -- Bryan Ryker's TAMS article on Fankhauser encased (all Ohio pieces have the Earl Fankhauser signature in small letters at the bottom of the obv., not mentioned in the text of this catalog)
BS -- cataloged and sold by Bob Slawsky. BS Sale No. 27 closed October 23, 1993 and was Bob's first large sale in quite some time. It began a series of sales every three or four months that continued into the 2000s, whcn the ubiquity of eBay ended such sales' feability.
BW -- from the personal collection of Bill Waken
CB -- from the personal collection of Carl Bangora
CD -- from the personal collection of Cory Downey (scanned picture supplied)
CDG -- Price list of CD Gale
CK -- cataloged and sold by Charles Kirtley, either by mail bid sale or in a fixed price catalog
CW – from the personal collection of Charles (Chuck)Wilkinson
DC -- from the personal collection of Donald Clifford
DF -- from Duane Feisel's cataloging of certain types of encased, such as good-for encased
DG -- cataloged and sold by Dick Grinolds
DL -- from the personal collection of Denis Loring, who collects insurance related encased
DM -- from the personal collection of Donn A. Moody
DR -- from the personal collection of Dan Rich
EB -- auctioned on eBay usually with a scanned picture provided
ECI -- from the quarterly newsletters of the Encased Collectors International, the Internet encased coin collecting club founded in 2004 after ACE folded
ECIW – from ECI's Wrangler maverick program, where the pieces were pictured on the Internet and members identified them
EE -- Emmett Ey, verifier of Cincinnati pieces
EK -- from the personal collection of Ed Karn, owner of Allen's Coin Shop
GB – from the personal collection of George Breeding
GM -- from the personal collection of Gerry McLellan
GP -- from the personal collection of Gary Patterson
HA -- from the personal collection of Dr. Herman Aqua

HB -- from the personal collection of Harley Bissell
HC – from the personal collection of Harry Crow
HW -- cataloged and sold by Herbert Weiss, whose mail bid sales started in 2001
IN -- for sale on the Internet, usually with a picture supplied
IR -- from the personal collection of Isidore Resnick
JB -- cataloged and sold by Jerry Binsfeld
JC – reported by Joe Copeland
JH -- from the personal collection of Jim Hartman
JL -- from the personal collection of Jim Lawniczak
JR -- from the personal collection of Joel Reznick, ACE's head frog, the expert on the 1947-48 Chevy Series pieces and a wonderful man to have in the hobby. Joel spent a long time with me on the phone over three different calls, probably over 6 hours total, giving me the listings off his computer of his Ohio encased that I did not have listed at the time. His information has proved to be very accurate. Then, in 2002, we spent another two sessions, over four hours, going over the 77 pieces for which JR was the only source and getting the exact information of what was on the piece. JR mentioned that he had a lot of Ohio pieces, especially from the SW corner (Cincinnati particularly) because he has been going to the IKO Tams annual show in Dayton for many years and because Gaylor Lipscomb sold him a lot of pieces.
JR-P -- from a group of pictures of interesting encased pieces that Joel Reznick sent me in 2003, I believe of the Michael Kolman collection
JSa -- from the personal collection of James W. Sanders
JSi -- from the personal collection of Jack Siles
JSt -- from the personal collection of Joe Steger
JT -- from the personal collection of Jim Treadaway
KK -- from Kurt Kruger's auction sale #124, closing 8/27/92, selling the Michael Kolman encased coin collection, reprinted in the Casement, issues 25-28
LOMT- Gaylor Lipscomb Ohio Merchant Tokens, 2d ed. 1994
MK -- from Michael Kolman's June 1988 TAMS Journal article (this is an excellent article and the first article known to me that was published on encased). The pieces referred to from this article were all pictured. The article was reprinted in the Casement, Vols. 8, 9 and 10
MM -- from the personal collection of Mike Macuga, who died in 2006
MP – from the personal collection of Miles Patton
MR -- from the personal collection and Dairy Token catalog of Melvin Reiter
MS -- Miscellaneous -- encased that I have seen (usually for sale)
NTCA -- Advertised in NTCA (National Token Collectors Association) Talkin' Tokens
NP -- from Norm Peters, Buffalo New York's exonumia expert, price list
NTCA-M -- listed in NTCA's "Talkin' Tokens," Bob Perdue's maverick column that started with the January 2004 issue, followed by the BP identification number in parenthesis, which is the NTCA issue it first appeared in followed by a number (starting with 1)
OR -- These are the encased purchase order records from the Osborne Coinage Co. Osborne made the Fankhauser encased pieces, and in his research on the 1995 Fankhauser article, Bryan Ryker (BR) was able to obtain their purchase order records from 1949 through 1969. He published them on the Interent in July 2008. That publication represented a huge gain in knowledge as to the number of pieces made and the location of the merchants ordering them. The site went dark in 2015 but Bryan resurrected it in 2025 and made it searchable so it is very useful. Type tokenandmedal.org/Osborne into your brouser.

PC -- from mail bid sales of Paul Cunningham. The catalogs I have seen are from #16 to #22, May 25, 1976 to May 30, 1977
PCu -- from the personal collection of Phil Cusumano
PW -- from the personal collection of Pat Whalen
RC -- from the personal collection of Richard Crosby (which I have personally seen)
RH -- from the personal collection of Rich Hartzog, or if followed by a sale and lot number, cataloged and sold by Rich Hartzog
RM -- cataloged and sold by Richard Mitchell of EXO Coin & Token, Oklahoma City
RMu – from the personal collection of Ron Mui
RP -- from the personal collection of Randy Partin
RPe -- posted for trade on the website of Ron Perrick
RS – from the personal collection of Roger Serrott
SA -- from the personal collection of Steve Alpert or cataloged and sold by Steve Alpert; Steve's Token and Medal Mail Bid Sale Number One closed on March 26, 1980, and sales have been continuing fairly regularly ever since.
SH -- cataloged and sold by Steve Hayden
TA -- from the collection of Thomas Alexander, a former coin dealer from Dayton
TACT -- described for sale in TACT, the National Token and Collectible Trader, published by Dick Grinolds
TC -- from the personal collection of Tom Casper
TCn -- from the personal collection of Tom Cain, posted on the ECI website
TCr -- from Terry Cross, from old ATCO catalogs
TH -- from the personal collection of Terry Hess, who collects mostly 1947 encased coins
TS -- from the personal collection of Terry Stahurski
TW -- cataloged and sold by Tom Wall
VN -- from the personal collection of Vic Nolan

Different Dates and Different Dies

If more than one date is known for a piece, I list the source of each date, separated by a semi-colon, with the source of the earlier date first. If I can verify that the pieces were struck with different dies, a completely different catalog number is given. If the encased pieces with the different dates were made by the same dies or if I cannot verify that different dies were involved and the dates are close enough together so that it is likely that the pieces were struck at or near the same time, only one catalog number is given. However, where the dates are far enough apart so that I believe it is likely that there was more than one die involved, where there is a difference in price because of a different date or mintmark or where the items have already been cataloged with -A and -B designations, such as the Fankhauser pieces, then I do use the -A and -B designations. The longer I work at this, the less I have to use -A and -B, as I examine more and more of the different pieces.

If the letters on two similar encased pieces do not appear in the same position relative to each other, the two pieces must have been made with two different dies. Dies wear out and have to be replaced. If there is a time gap between strikings, it is possible that the original die has been lost, so that a new die must be prepared. Usually the engraver tries to make the new die as close to the previous die as possible, but never exactly succeeds. The lettering is often just a bit off.

Examining various dies and the dates in the pieces suggests to me that most encased pieces were made with original rolls of the same date and mint marked cents. Thus, on a large series, such as the Gamler series from Buffalo, N.Y. and on the City of New York City of Wonder series, there is not a lot of variation in the dates of cents used with the different dies. It is the rare piece that appears to have been made with a wide variety of cents. Two Ohio examples are the ExpOhio (OH-(COL)-EX-10) and the Souvenir of Fairfield Co. Fair ((OH)-(LAN)-FA-20) pieces.

On some of the "Souvenir of" pieces, the "O" and the "F" of "of" are widely separated. That is what is meant in this catalog by the use of "widely separated."

Coin Denominations and Other Things Encased

By far, the most common thing encased is the United States cent, by many orders of magnitude. When encased pieces started to be made, the cent had considerable value, today it is essentially worthless and in 2026 going out of print. Thus, cents were popped out of encasements to be spent in the early years, but no more. There are also encased nickels, dines, quarters, halves and dollars. Very rare are other things encased, I know of two, magnifying glasses (see OH-CLE-CU-10) and compasses (see OH-DAY-RA-30 and -32).

Holes in Encased

If I believe that a piece was holed as made, I note that, along with the location of the hole. Unless the hole is very crude, it is sometimes difficult to tell if the hole was added to all of the pieces made or if someone punched a hole only out of the piece in question. This is because the holes were not built into the planchets, but rather were punched out after the piece was manufactured. Therefore, a well made hole by the consumer will look exactly the same as the hole made by the manufacturer. A drilled hole is easy to tell and is what is meant when "crude hole" is used.

Pricing -- An Art Not a Science

I have received comments that readers of this catalog appreciate my giving an estimated value on the pieces. I have tried to do that, even though I often do not have enough information to do anything but make an educated guess.

Where a value is given, it is intended to include a range of plus or minus about 20%. It is not intended to be specific. I could easily put slightly different prices on the same item depending on when I placed the value. Both $7 and $8 really only mean a price between $5 and $10, and a reasonable sale could even occur slightly outside that range. Unreasonable sales are not all that rare as often neither the seller nor the buyer has a good grasp on the value of the piece.

Because of the small market for encased, pricing can vary substantially. Two people who really want a piece can bid the item up beyond any prior expectations. On the other hand, prices can be very soft if demand drops only a little. Experience on eBay shows that once one person acquires a piece, the next sale can realize substantially less, because one less collector

is now bidding on the piece. Values are based on my experience with these and similar pieces and upon auction prices realized.

The value given is based on a nice, problem free EF piece. Reductions should be made for pieces with problems or which are more worn than EF. Pieces with nice cents with luster, particularly nicer Indian cent pieces, are worth more. A nice encasement, particularly an older encasement, with no noticeable marks and no tinpest (graying) is also worth more. The values are only for original, non-replaced coins. If the coin has been removed and replaced, the value drops dramatically, especially among the common pieces. I have written extensively on replaced coins in my 1999 TAMS article and in the Casement. Keep in mind that the original coin was struck with the encasement. The coin should therefore be in the encasement tightly and cannot be pushed out with pressure. There should be no light showing between an original coin and the encasement. The original coin will lie even with the encasement or under it -- it will not stick out over the encasement. Replacement coins are a particular problem with Indian cents, probably because many of the original Indian cents were removed in order to spend them.

There may well be marks on the coin from its second striking in the encasement. This can include a flattening at the rim, markings made from the encasement die at the edge of the coin and even marks made on the high points of the coin by the pressure of the strike. Unless egregious and detracting, these marks will not reduce the value of the encased piece. In fact, they can enhance it by giving evidence of the originality of the cent.

Maverick Identification and Attribution

A “Maverick” is a token that is not self identifying as to the location of the advertiser or event. The work maverick came from a Texas land-baron and politician, Samuel A. Maverick, who lived in the mid-1800s, who refused to brand his calves. Some mavericks are more obscure than others. On some encased, even though the city or state is not listed, it is fairly obvious where the piece came from, either because the described entity is well known or the address given can only be from one city. An example of the famous entity type is the Souvenir of Cedar Point pieces. Cedar Point immediately suggests the amusement park in Sandusky Ohio, to persons in the Midwest at least. An example of the address type would be 510 Euclid Avenue, the Euclid Arcade (see the Euclid Clothes Shop piece cataloged under Cleveland), which to those of us in Northeastern Ohio must be downtown Cleveland, without need for any research. Folks from other states might have to do some research or they might mistakenly put the piece into Euclid, Ohio.

Other mavericks require research. Valuable tools include old city and state directories; the Internet, in particular the map and nearby business features of a search engine like Yahoo; and the telephone, calls to local libraries, historical societies or even the businesses themselves.

Some tokens are mavericks even though they give some information as to location, because that information is ambiguous. Tokens that list only the city and not the state can be a problem if there are more than one of those cities in the country. A good example is the Hart Furniture Co. piece, with address of 6022-24 Broad, East Liberty. East Liberty is not an uncommon name for a town and there are quite a few, including two in Ohio, one of which is

near Columbus, and one in Pennsylvania. In fact, a good guess would be to attribute the piece to the Ohio town near Columbus, because Broad Street is a main downtown street in Columbus. That would be wrong though, because Ohio's East Liberty does not have a Broad Street in it. Pennsylvania's (a suburb of Pittsburgh) does, including an address in the 6000s. That identifies the piece sufficiently to make East Liberty Pennsylvania the attribution of this maverick piece.

Even pieces listing "O." as the state can be ambiguous. Oregon and Oklahoma have to be checked to see if there are cities with the same name in either of those states.

Some mavericks will never be located, like the "Babe's My Pal" piece. Well, oops here. After I wrote that last sentence, the "Babe's My Pal" piece has actually been identified to Des Moines Iowa, where Babe had a famous restaurant. How about, "The Union," now that one would be almost impossible to absolutely verify. Others are unlikely to be attributed, such as "Globe Loan Co." because even if a Globe Loan Co. is found, there is usually no evidence that it is the right one.

The tradition in token collecting has been to attribute tokens to cities. Some tokens, however, were not made for cities, but instead for larger geographic areas. A good example would be the encased in my collection with 1937 date: "Souvenir Northwest Territory Celebration 1787-88 1937-38." I know that there were 150 year anniversary celebrations in several towns in Ohio and Indiana and one in Minnesota (I have a similar token that has a Minnesota city on it) and I suspect elsewhere in the Northwest Territory. This token cannot be attributed to any city or state because its scope is broader than that -- it covers the whole Northwest Territory. It is not a maverick because its location is identifiable. I have not cataloged this token in the Ohio catalog as it does not seem to me to be an Ohio token. It would belong instead in a catalog of mavericks and encased not identifiable to any particular state.

Because of the tradition to identify tokens to cities, tokens of corporations are attributed to the corporation headquarters, even when the token is national in scope. The best example of this is the attribution to Detroit Michigan of the Chevrolet 1947 and 1948 encased generic pieces announcing the Chevy encased series: "S.A." Chevrolet's Got It! Even though the piece is certainly meant to be national in scope, tradition puts it in Detroit. Here are two examples of pieces attributed to corporate headquarters -- Bendix Automatic Washer, to its headquarters in South Bend Indiana and Beau Brummell Ties to its headquarters in Cincinnati.

Some pieces did not list a city because the city was not important to the person who commissioned the piece. Examples of this are National and State Park pieces and the Indian Lake piece, attributed here to Russells Point. The lake is the point of the Indian Lake piece and no city or town is relevant to that point. However, in the interest of uniformity, I have decided that if a piece refers to a single geographic area, I will attribute it to a town. Thus, Indian Lake is cataloged under Russells Point, its nearest town. Every place has a mailing address and every mailing address has a city and state. It is my job to determine what that mailing address is.

ACE had a Maverick identification program. Members could submit their mavericks, which were given a number and other members submitted attributions. If an Ohio piece has been identified by this program it is listed as AM(x). For the last several years of its existence, the source of the attribution has been listed in the Casement. Once ACE folded, the

Encased Collectors International began a "Wrangler" maverick program on its website. Beginning in January 2004, Bob Perdue began to write a column on encased mavericks in NTCA's "Talkin' Tokens," which he has continued sporatically. He keeps a listing of known maverick encased.

The Internet has been very useful in identifying mavericks. Help comes from the map and business location programs, both Yahoo, Google and expedia (www.yahoo.com and www.expedia.com). Help also comes from the phone exchange website, http://ourwebhome.com/TENP/TENproject.html/, which contains listings of exchanges from various cities. Also, the search engine, www.google.com is very useful to find cites that refer to old merchants.

It is quite possible to wrongly identify a maverick, either because of sloppy research or because a piece is ambiguous and the wrong business has been identified. Some reasonable assumptions have to be made. For example, technically the Souvenir of Cleveland and Souvenir of Columbus Zoo pieces are ambiguous mavericks, because they do not clearly identify Ohio cities. However, a reasonable assumption is that the more famous Ohio cities are indeed the cities referred to, and that if Cleveland, Tennessee were to make a souvenir token, it would list Tennessee on the piece. I list a piece as verified if it is very probable that it is from that location based on those kinds of reasonable assumptions. If there is doubt about the attribution, I list the piece as Unverified, and further research is required. I have tried to list the source of all my attributions here so that anyone coming behind my work will have a good start.

If you are trying to find a maverick in the Ohio catalog, please use the Maverick Cross Check at the end of the catalog. There are still quite a few unverified encased. If you have any information on these unverified Mavericks, please let me know.

Merchants

A trip through a group of encased, and thus through this catalog, can be an interesting journey into the commercial and historic past of the 20th century. The pieces show small and large merchants, small and large towns and historic places and events. Each piece has an interesting story to tell.

One of the things that I have tried to do in this catalog is to find out something about some of the merchants who made the encased to give the encased a human touch. I read somewhere that the half life of a business in this country is five years. For that reason, most of the merchants who made the encased reported here are no longer in business. But some are, even at the same address. On the other hand, most of the places, the towns and the streets, have remained the same over many years. I intend to add more color stories to future drafts and editions of this catalog.

Ohio Geography

I will try to describe the locations of the cities and towns on Ohio encased by reference to points that should be known. Ohio is bounded by Lake Erie (America's Northern Coast) on the north and the Ohio River on the south. Lake Erie runs generally east and west, with a dip to the south from Toledo to Sandusky and then a bit northerly direction from

Sandusky to the eastern end of the state. The Ohio river runs essentially south west until just north of Huntington West Virginia, when it begins to run mostly west, perhaps just a bit north.

Ohio has quite a few fairly large cities -- Cleveland lies on Lake Erie at about the midpoint of the lake but in the eastern part of Ohio. Akron is about 30 miles south of Cleveland and Canton a further 30 miles south. Youngstown is near the Pennsylvania border about 40 miles east of Akron. Toledo is at the end of the Maumee River (which flows from that famous encased city, Fort Wayne Indiana) on the far southwestern part of Lake Erie. Cincinnati is on the Ohio River in the far southwestern corner of the state, with Dayton about 45 miles north and just a bit east. Columbus, the state capital is in the middle of the state, just a bit to the south and the west of the actual center. Wheeling West Virginia is due east of Columbus across the Ohio river.

[ ] OH-XXX-GR-10. 1928, H. [star each side] Ohio's Famous Ballroom/ Greystone/ [the same two words, both to the left and right of the cent with the first word going down vertically and the second word underneath going horizontally] West 4th// Wishing You/ a Happy & Prosperous/ [star each side] New Year\\ KMANGB/ IBGL. Internet searches show many references to a famous Greystone ballroom in Detroit, on Woodward Ave. where Duke Ellington played in the '30s and there was dancing into the '50s. The only reference I have seen in Ohio is to Portsmouth, where a boxing match took place in 1932. Indeed there is a 4th Street in Portsmouth, but it does not appear to be either east of west, which makes me think it is unlikely this piece is attributable to Portsmouth. I am confused here by the use of the word "famous" on the piece; if it was that famous, why can't I find it? If the piece didn't say Ohio on it, I would have attributed it to the most famous Greystone Ballroom in the country, the one in Detroit. JL, EB, CW, EK, DG#101,98 $10

[ ] OH-AKR-GA-12. 1946, RD,35mm. Same words as on the -10 '46 piece but slight differences show this obverse is a different die. Here, the comma in Akron points pown to the left side of the "H" in What. On the -10 '45 piece, it points to the right side of the "H." On this piece, the "R" of Insurance is under the far right side of the second "O" in Gordon. On the -10, it is under the right side of the second "N." EB, DL $12

[ ] OH-AKR-GE-10. 1916, H-FOB. Compliments/ of/ G.E. Rich// The Horse Shoer/ Akron, O./ [bird like design in each corner -- might be a very simple and crudely drawn fleur de lis]\\ KMANGB/ IBGL. This horseshoe style, which has a loop at the top for hanging, is fairly rare. This piece has the same reverse as the 1914D Bane & Ratcliffe, Pulaski Virginia piece. There are also quite a few horseshoe fobs in the Washington D.C. souvenir series; I know of 1937, 1938 and 1940S cents. Another fairly common piece with the horseshoe fob is the A.J. August Clothing Co. St. Joseph, Mo. piece that exists in at least two different dies with 1927 and 1928 cents. However, TS notes that this piece is very thick, just under 3mm, while the D.C. souvenir and St. Joseph fobs are normal thickness for a horseshoe encased, just less than 2mm. Perhaps this is just a striking anomaly on this one piece. A very interesting piece. TS $35

[ ] (OH)-(AKR)-GO-10. 1881S Morgan Dollar encased in a hard rubber Goodyear Tire replica. This piece was purchased from the BS auction by Clifford Mishler, who wrote about it in his Numismatic News column. I have attributed it to Akron, the original (1898) and still current (summer of 2000) headquarters of the Goodyear Tire & Rubber Company. BS#62,980 $200

[ ] OH-AKR-HA-10. 1968D or 1969, H. Dr. M.S. Harvey - 263 E. Mill - Akron, Ohio// U.S.A.\\ KMAHGL/ IBGL. It is very unusual for a piece to have U.S.A. on it. I wonder if Dr. Harvey gave these to foreign patients, or perhaps took some on a foreign trip with him to give out. I bought this one on eBay from a New Zealand seller, who returned it to Ohio. The 1969 piece came on for sale quite a bit later. It looks like the two pieces have the same dies, although it is not easy to tell as there are no overlapping letters. JL; EB $10

The Kirby Federation of Ohio is a cultural organization with its date of organization as a not for profit corporation in 1940 in Akron Ohio. It is still located there in 2012 according to the records of the Ohio SOS, which includes online a copy of the articles of incorporation. According to an article in the Toledo Blade from August 28, 1951, the organization had its 18th annual Mahrajhan, a two day picnic and reunion, at Roma Park in Medina county. This organization was founded by immigrants and descendants of persons from the Lebanese village of Kherbet. I am not certain where the 25th Mahrajhan was held, so I have put the piece here at the federation's location. JL, EB, CW $10

In addition, I called an Akron public librarian, who checked the Akron directory for 1946. The only store in Akron for Shulan's in 1946 was at 85 South Main Street. Today, there is still a "Shulan's Fairlawn Jeweler" at 2701 W. Market Street in Akron. Market Street is the main east west street through downtown Akron, Ohio route 18. It continues northwest out of Akron to Fairlawn, about 6 miles out. Main Street runs north south and intersects with Market in downtown Akron. Shulan's was listed as "not incorporated" in the 1947 Ohio Dun & Bradstreet.

It was a fairly large operation with estimated pecuniary strength of $75,000 to $125,000 and good credit. JL, JR, JSt, EB $12

The last line on the obverse wraps so far around, it almost touches the top line. Shulan's has added a second location in Akron since 1948. JL, EB, JR, JH, DG#103,399 $10

[ ] (OH)-(AKR)-SH-18. 1955D, RD,35mm. Same words as on the -16, but this is a different die than the 1953D piece, although the differences are small. On this piece the "M" of Main lies under the right side of the "U," while on the 1953D piece it is directly under the "L." On this piece, the "C" in Canton is over the "U," while on the 1953D piece it is between the "P" and the "U." The two pieces have the same reverse dies. JL, JH, VN, CK#175,Q43 $10

[ ] (OH)-(BAR)-DA-12. 1950D, RD,35mm, holed at bottom. Davern's Sandwich Shop/ SH. 0357// Norton [hole] Center\\ KMAYWHGL. The 1115 Wooster Rd. N. location is no longer listed on this piece, and the plural "shops" has become singular. There is a reference on the Internet to getting back to Barberton to go to Davern's Drive In at Norton Center where you could get a chili dog. Norton Center is one of seven hamlets of the current Ohio city of Norton, next city to the east of Barberton. Norton was incorporated in 1961, well after this piece was issued. SHerwood is listed on the Internet telephone exchange website as a Barberton exchange. While I am not convinced the location of this maverick was technically in the city of Barberton (it was probably in an unincorporated township), the establishment was known as a Barberton establishment, and the piece made three years before this one said that Davern was from Barberton, so I will list this piece there as well. [ ] OH-BAR-MO-10. 1948, RD,35mm. [star each side] Montz Chevrolet Co.// 459 W. Tusc Ave./ Barberton, Ohio. This was an unlisted Ohio Chevy piece when it appeared on eBay in October 2000, so there was quite spirited bidding. However, since then quite a few more have appeared. One of the main streets in Barberton is Tuscarawas Ave., the name of the Ohio county

to the southeast. Tuscarawas is also a main street in Canton and is also nicknamed "Tusc" there. JL, EB, EK, SA#67,545 $15

I have seen a xerox of the JH piece and that is indeed what it says. There is no street in Barberton named Tuscarovis, so I can only guess that the maker of the piece misspelled the name of the hard to spell "Tuscarawas," putting "ovi" instead of "awa" near the end. See the Montz Chevrolet piece for a discussion on Tuscarawas Avenue. JL, EB, JH, BS#40,518 $25

These color plastic encased were made starting in the early 50s. I have an interesting key chain, a blue plastic encased that looks just like this piece, except that there is no writing on the back and there is a hole for the cent to show through. This generic piece comes attached to the card it was on when sold for 10 cents. These pieces were made by the Amsterday Co., Amsterdam, N.Y., as evidenced by a sample piece. JL $10

[ ] OH-BAR-RI-14. 1905 or 1906, H, holed at top red or green plastic. Same style as the -10, but different words. These pieces say: Rich's/ Good Food/ Lake Theatre Bldg./ Barberton, O. These pieces were certainly not made in the 1900s, but may not be replaced cents either -- I have seen the generic form of this type of piece sold with Indian cents and now with 2 different colors seen of this one each with Indian cents, I believe that circulated Indian head cents were used to make these, probably in the early 1950s or thereabouts. [ ] (OH)-(BED)-HO-20. 1947D, H, holed at top. [hole]/ Hobby Horse Tavern/ [six sided star with circle in the center on each side of the cent]// Mike Kubenetz,/ Prop./ Bedford 539\\ KMANGB/ IBGL. BP found Hobby Horse Tavern listed under Bedford, Ohio, serving alcohol, in his 1955 Dun & Bradstreet. I found it in the 1961 Ohio Dun & Bradstreet, indicating that the business came under its present control in 1956. Therefore, Mike Kubenetz must have sold the business then. Indeed, Mike Kubenetz is listed in the 1961 Ohio Dun & Bradstreet, in the scrap iron, metal business. According to the Internet phone exchange website, Bedford was an exchange for Bedford, Ohio (the only one listed). Still today in 2002, 232- (BE 2-) is one of the more common phone prefixes in Bedford. I believe that is enough to verify this piece to Bedford, Ohio. EB $10

The Bellefontaine library kindly sent me an advertisement from the Saturday November 4, 1944 Bellefontaine newspaper for Carl S. Crone running for sheriff of Logan County in the Nov. 7 general election as an Independent. The November 8, 1944 newspaper reported his defeat. He received 1008 votes compared to the victorious Republican candidate who received 7996 votes. Mr. Crone was described as a "railroader, who was making his debut in Logan county politics." It looks like he ran again several years later when this piece was issued, and he must have lost again, as he was never actually sheriff of Logan County. JL $8

[ ] (OH)-(BVU)-BE-10. 1909 Lincoln, RD,35mm. The Bellevue Savings Bank Co./ [10 dots or small stars]// Capital/ Surplus/ $37,500.00.\\ KMANGB. The Ohio eBay seller believed that this was an Ohio piece as it came from an Ohio estate. The Bellevue Ohio website indicates that the Bellevue Heritage Museum is located in the "Bellevue Savings Bank Building" at 200 E. Main Street. I found a 1924 lawsuit from Ohio entitled General Motors Corp. v. Bellevue Savings Bank Co. The Ohio Secretary of State website shows "The Bellevue Savings Bank Company" as a "dead" Ohio corporation with an original filing date of July 23, 1901, from Bellevue (Huron county), Ohio, consolidated out of existence in February 1930. This should be enough to verify this piece. JL, EK, EB $20

[ ] OH-BVL-BL-10. 1948, RD,35mm, holed at bottom. Bloom's Cafe/ Bellville, Ohio// Beer Wine/ Phone [hole] 2671\\ KMAYWHGL. On the very day I first saw this piece at Allen's Coin Shop in Westerville, I continued driving home on the back roads and stopped in Bellville. I asked a lady in an antique shop about "lucky pennies" and she said that they did not have any for sale but that she had one at home that her husband found under the seat of a car he was working on for parts and she had no idea what to do with it as it would take too much energy to get the cent out to spend it. So, she said she would mail it to me, and she did. It was the Steel Cent for the Steel City, 1989 ANA/Numismatic News piece. The eBay piece came on for sale in July 2021 and was very worn, mostly unreadable below the cent. The seller wanted $24.95 for it. EK, EB, ATCO 7/93, p.44 $10

Belpre (amazing how many little Ohio towns that start with Bel have made encased cents; this town is on the Ohio River directly across from Parkersburg, WV; thus about 10 miles down river from Marietta)

There are Belpre High Schools both here in Ohio and in Belpre Kansas, though our Belpre is much larger (6660 population according to the 2003 Rand McNally atlas; Kansas has 104 people according to travel-demographics.com). According to the Internet, it appears that there were high schools in both (although Kansas's was combined with Trousdale at least after 1959 and perhaps before). HC reported that he found this piece in Belpre Ohio, which makes it much more likely, though not certain, that this is from the high school in Ohio and not Kansas. [ ] OH-(BER)-OT-10. 1956D, H, holed at top. Souvenir of the Ohio Turnpike. AZ has attributed this to Berea, where the headquarters of the Ohio Turnpike Commission is located. To me this is a close call, and I would probably just list the piece as a general Ohio piece. The piece is not about the Ohio Turnpike Commission, which is in Berea, but rather about the Ohio Turnpike which runs all the way across the state. In fact, AZ reports that it was sold at Turnpike service center gift shops. But I recognize that the hobby likes specific city attributions and would probably support attribution to Berea, so I will go along with the hobby. The Ohio Turnpike was supposed to become a free road around the end of the 1900s, but the Commission decided it needed to keep operating and use the toll money for improvements, including many new interchanges. EB, AZ, BS#53,893 $8

[ ] OH-(BER)-OT-12. 1958D, H, holed at top. This piece has the same obverse as the -10, but a different reverse die. On this piece, the top of the wishbone continues on so far, it almost touches the clover, even closer on the left than on the right. The left top of the wishbone ends opposite the "D" of And on the -10. The 1958D Souvenir Terminal Tower piece, (OH)-(CLE)-TE-12, has this same reverse. The EB piece was described as an error because of a band lf lamination on the cent reverse. I think it more likely the cent was affected by the encasement process.

There was a series of toll road horseshoe encased pieces in 1958. I have also seen an Indiana Toll Road, Kentucky Turnpike, West Virginia Turnpike, Pennsylvania Turnpike and a Will Rogers Turnpike piece each of which has a 1958D cent. The Kentucky Turnpike piece has the same reverse die as the -12 Ohio piece; the Indiana, Pennsylvania, West Virginia and Will Rogers pieces have the same reverse die as the -10 Ohio piece. There may be others in this series. JL, PC#16,1317, EB $8

Henry C. Walther is listed in the "tavern" business in the 1947 and 1951 Ohio Dun & Bradstreet directories. Walther's Cafe is still in business at this address in 1957, as per the listing in the 1957 Canton cross directory In the January 1961 D & B directory, Henry C. Walther is listed in the general contracting business. Perhaps this is a grandson or nephew of the tavern owner? JH $10

Cardington (small town 35 miles N of Columbus)

[ ] OH-CAD-DU-10. Unknown date, RD, celluloid mirror. You Will Always Have Money in Your Pocket/ Buying Your/ Clothing at/ the Big Store/ Dugan's/ Cardington, Ohio. VN reports that someone took the mirror apart by peeling the steel plate behind the celluloid back, then bending the steel back over the replaced cent. This is one instance where it may have made economic sense to remove a cent from an encasement. If this was an MS65RD Indian cent worth $200 or more in the coin market which could be removed without any damage to the cent, the value of the cent alone would have exceeded the value of the cent and the mirror, as the high range for this encasement would be $100 to $150. No Philadelphia Lincoln cent would be worth enough alone to warrant breaking it out. Therefore, it is likely that the original of this piece comes with an Indian cent. BP's piece has a circulated Lincoln cent showing the reverse. The TC piece sold on eBay in August 2010 had an uncirculated Lincoln cent reverse. I think it was the same piece that came on for sale on eBay again in September 2012 and had a bid of almost $35 with two days to go. Very strange all around! EB (ex TC), VN, BP $70

Route 127 and Route 24 travel together for a couple of miles and the restaurant is on that stretch. According to the owner, its mailing address is Cecil. Chippawa on-the-Lake (20 miles W of Akron)

[ ] (OH)-CHP-DI-10. 1946, H. Diebold/ Family Picnic// August 19, 1946/ Chippewa Lake\\ KMANGB/ IBGL. Chippewa Lake was the oldest amusement park in the United States, started in 1875. It closed in 1978. At 390 acres, Chippewa Lake is the largest natural lake in Ohio. eBay seller, Sam Masi, told me he obtained one of these pieces from a lady whose dad worked at the Diebold company. There is a Diebold Inc. still in business in 2001 in Seville about 4 miles from Chippewa Lake. It is pretty likely that the family picnic probably took place at the Ohio Chippewa Lake amusement park, even though there is also a Chippewa Lake in Michigan. I believe the above is enough information to verify the piece to Ohio. JL, VN, EB $15

Cincinnati

Introduction to Cincinnati Tavern Encased

There may have been a salesman in the early 1900s in Cincinnati who was as good at selling encased cents to taverns as Earl Fankhauser was in selling encased cents in Fort Wayne Indiana in the late 50s and early 60s. There are an extraordinary number of Cincinnati tavern encased from the 1900s, as you will see as you read through the Cincinnati listings. A review of LOMT on Ohio merchant tokens will show a very large number of tavern tokens from Cincinnati and its surrounding area.

The same salesman probably sold across the Ohio River in Covington Kentucky as well -- SA cataloged a 1901 Indian piece for "Geo. H. Budde, Latonia Hall, GF Five Cents At Bar," in his sale #37 at lot 1483.

There is another large group of tavern encased from just after the Second World War. There seem to be an unusually lot of tavern and bar encased with dates 1946, 1947 and 1948, mostly horseshoe, though some are round. Some examples from Ohio include: Benny Cole's Lounge Bar, OH-AKR-CO-10; Hobby Horse Tavern, (OH)-(BED)-HO-12; Central Cafe, Mirror Bar, OH-CIN-CE-10; 4 Star Cafe, (OH)-(CIN)-FO-20); Lefty's Cafe, OH-CIN-LE-10; Tramend Nite Club, OH-CLE-TR-20; Jeppe's Tavern, OH-GEN-JE-10; 2200 Bar, OH-LOR-TW-10; Charles Rainbow Bar, OH-MRV-CH-10; Nick's Cafe, OH-SPR-NI-10; Shady Grove Tavern, (OH)-TWI-SH-10 and Budapest Tavern, (OH)-(YOU)-BU-10. Examples from other states include Tally Ho Bar of Detroit Michigan (1946); Cactus Bar of Saginaw (1947); York Tavern, West N.Y., N.J. (1947); Parkway Tavern, Racine Wisconsin (1947); Silver Dollar Bar,

Albany, N.Y. (1947D); C. Schnellmann's Tavern, St. Louis Missouri (1947); and Ernie's Club Cafe, Gilcrest, Colo (1947).

[ ] (OH)-(CIN)-BI-20. 1930, RD,35mm. Real Estate & Builder/ Jos. H. Biecker// 1115 Keith Bldg./ Phone – Main 6741\\ KMAYWHGL. I think 1930 is the correct date for this piece, but the eBay piece had the cent upside down and that can be a sign of a replaced cent and the seller wrote me that there is light showing in places around the cent. This piece shouts Cleveland by address and phone. Main was a Cleveland exchange, and the Keith Building was the tallest building in Cleveland when it was built in 1922 about ½ mile east of downtown Cleveland. It had a number of office tenants in businesses similar to Mr. Biecker's. However, when I checked many old Cleveland directories from 1929 to 1953, I found no Bieckers and even more telling no odd numbered offices in the Keith Building. They are all even, so there is no 1115 Keith Bldg. in Cleveland. Then BP emailed me that he had found evidence that a Joseph Biecker was born in 1880 in Cincinnati and that of 32 people on the Social Security listing in the country, about 10 were from Cincinnati. Then he found that there was indeed a Keith Building in Cincinnati too, an Xavier college alumnus, Joseph Cloud, who was in the insurance business, had an office at 1015 Keith Building, Cincinnati, phone MAin 0298, around 1930. That made Cincinnati look very likely and prompted me to look in my 1951 Cincinnati phone directory where I found this listing: "Biecker, Jos. H & Son rl est 3186 Harisn MOntana 0234." This shows that there was a Jos. H. Biecker in the real estate business in Cincinnati, and with the information Bob found verifies this piece to Cincinnati. It looks like Mr. Biecker moved from the Keith Building to 3186 Harrison. EB, ECIW(619) $10

After this piece was first made in the early 50s, Hotel Broadway had its own pieces made in 1953 and 1961 (see OH-CIN-BR-12 and -14) and Hotel Kemper Lane its own pieces made in 1953-54, 1960 and again in 1968 (OH-CIN-KE-20, -22 and -24). [ ] (OH)-(CIN)-CI-10. 1901 or 1902, RD,38mm. Silk Finish Rye// Cincinnati Distilling Co.\\ GL/ KMAP. I am not certain this belongs in Cincinnati. According to the records online of the Ohio Secretary of State, the Cincinnati Distilling Company was organized as an Ohio corporation on 6/28/04, which organization was cancelled on 8/27/14, although the records are incomplete. It shows Columbus, Franklin County as the location of this business. There is a 1904 criminal case in the Supreme Court of Indiana, where the alleged criminal was supposedly pretending that he was authorized to act on behalf of Robert Young, d/b/a Cincinnati Distilling Co. Until I have more information, I am going to assume that Mr. Young's business was in Cincinnati in 1901 and 1902 before he incorporated it and that the Secretary of State's reference to Columbus is either mistaken or applicable to a later period. It is still an unverified piece, however. BS#62,69 had a 1907 cent, but it was probably a replacement. JL, BS#45,8; EB, JH $60

The phone exchange website shows that Canal was a Cincinnati exchange, from a directory from 1931. The 1940 Dun & Bradstreet lists Dorman Automotive Parts Co. as from Cincinnati with branches. Dorman Automotive Parts Co. is listed in the 1951 Cincinnati phone directory at 1005 Walnut. Jack Dorman founded Dorman Products in 1918, five years

before this piece, and started at 219 E. 8th Street in Cincinnati. I have found no other reference to any Dorman Automotive parts company. While this is not 100% definitive, I think it is almost certain that this piece was made for the Cincinnati company. EB $18

Newark\\ IBGL/ KMANGB. The Enquirer published its first edition on April 10, 1841 and is still publishing in Cincinnati today. This piece was likely made in 1900 for the 1900 election. I should probably go back and read 1900 issues of the Enquirer -- there must have been some mention of the piece. Some circulated cents were used on this piece -- the inscription itself suggests that different dates were used. Some light shows through on my 1887 cent, which makes its authenticity very suspect. However, the Wishbone shape is the hardest of the encased to authentic because no marks were made on the cent and due to the depth of the encasement, I believe that it is possible that a small amount of light (a very small amount) could show through between the encasement and the cent even on a genuine piece. I found 10 legal cases for the Fifth Third Union Trust Company from 1930 to 1950. A 1932 tax case indicated that the Union Savings Bank & Trust Company of Cincinnati had become the Fifth Third Union Trust Company. The Fifth Third Union Trust Co. was listed with main office at 4th and Walnut and 20 branch offices in the 1951 Cincinnati phone directory. I always wondered how there could be a Fifth Third Bank -- it seems as if it would

have been the fifteenth bank in town. TS suggested that it might be the result of a merger between the fifth and the third banks. Today, May 3 is looke on as Fifth Third day here in Ohio.

Most of these pieces are described as holed at bottom. My pieces have no hole but instead have a dot at the bottom, where there is enough space for a hole. My guess is that the manufacturers use the dot to mark where the hole should be cut after the pieces are struck. For some reason, my pieces did not have the hole punched in them and so the dot is still there. All pieces look like the same dies. Although there are no overlapping letters, all pieces have an "E" in The that is noticeably lower than the "H" next to it. I have not seen the 1961D to compare dies. [ ] (OH)-CIN/NOR-GR-54. 1947, RD,35mm. On first glance, this piece seems identical to the -GR-52. But this is a different die, with the placement of the letters just a bit different. On the -GR-52, the "2" is under the second "E" in Greenwald, the last "E" in Vine is between the "A" and "T" in Cincinnati; on this one, the "2" is between the "E" and "N," while the last "E" is just to the left of the final "I." The reverse dies are identical. Why would someone make two nearly identical dies in the same year? The only answer I can come up with is the same reason why the U.S. mint makes more than one die in the same year. A die wears out before the total number of desired pieces has been struck. Without a master hub, it is almost impossible for the die engraver to exactly match the position of the letters from one die to the next. Therefore, as with U.S. mint production in the early 1800s, it is easy to tell that a piece has been struck with a

different die (so long as you can actually examine the piece in person, or through a good Internet scan). JL, EB $10

[ ] (OH)-CIN/NOR-GR-56. 1948, RD,35mm. Same words as on -52 and -54 but DM correctly reported that both the obverse and reverse die work are substantially different than the -52 and -54. [ ] (OH)-(CIN)-HA-24. 1952D, RD,32mm. Harry the Paint Man// Watson-Standard Paints\\ KMANGB. This piece is almost certainly by the same person who did the 1937 piece 15 years prior. JR bought this from Jerry Schaeper from Covington Kentucky and Jerry told JR it was from Cincinnati. He was right. Moskin's Credit Clothing Stores is listed at this address in the 1951 greater Cincinnati phone directory. I believe this was a national chain. The 129 East Sixth St. piece was from E. Liverpool Ohio (see (OH)-(ELI)-MO-10. There was an article in the Akron Beacon Journal indicating that Moskin's Credit Clothing Co. had a store on Main Street downtown Akron in 1951 and 1961. There is another location given in the 1951 Cincinnati phone book -- 724 Madison, Covington, Kentucky. My 1953 Columbus phone directory lists Moskin's at 171 S. High. The Internet lists Moskins in Cumberland Maryland (Baltimore Street), Wilmington Delaware (718 Market in 1948), Chattanooga Tennessee and Chester Pa. (316 Market Street in 1952). RH sold a Moskin's Credit Clothes & Jewelry 1946 piece from Rockford, IL (not listed as a maverick) as lot 957 in his mail bid sale no. 10. Two pieces with addresses 195 West Center St. and 330 West Pike St. sold on eBay in 2002, and one without cent with address 102 North 19th Street sold in 2015 (attributed by the seller to Birmingham Alabama, it looks like correctly so based on a web post from the Birmingham library showing what businesses were on the west side of the 100 block of 19th street North in Birmingham). This is still unverified but Cincinnati is almost certainly correct based on the name, address and phone number. According to expedia, only Cincinnati and Spring Grove VA have this address. 3815 Spring Grove Cincinnati is near the intersections of Interstates 74 and 75 on the north side of town. There are many gas stations in the area today. The area is certainly the "north side"; according to Yahoo, in 2002 there are 18 businesses with the word "Northside" in the name within two miles of this location. According to Yahoo, it is not clear that 3815 Spring Grove is a valid address in Spring Grove VA. According to the phone exchange website, LIberty (54) 2- was added to the Kirby exchange office after 1955 and was in the College Hill area. This address is about 3 1/2 miles south of the center of the Cincinnati neighborhood of College Hill at North Bend Road and Hamilton Aves. Northside Sharp is not listed 11 years before this piece in the 1951 Cincinnati phone directory, but Edw. F. Roehling is, at 2927 Jessup. JR, AC $5

In 2004, the Talmadge Loyd advertising company of Dallas Texas listed the "Osborne Coinage - Coincraft Line" on its website under tokens and medallions. Until this ink souvenir piece came on for sale on eBay in November 2005, I had not noticed the lack of Cincinnati souvenir pieces. I am amazed that there are no chamberpot or other early Cincinnati souvenir pieces. JL $4

around horseshoes// S.W. Cor. 8th & Baymiller Sts./ Good for 5 ¢ at bar.\\ "IBGL"/ "KMANGB." This is the four leaf clover rev. with very low relief clovers -- the type where marks are not made on the cent in the manufacturing process. Not listed in Lipscomb, but two tavern tokens (1904) are listed with the same name and address as on this piece, LOMT CI2650 and CI2651. 8th and Baymiller no longer meet in downtown Cincinnati, probably because of the expressways that now go through that area. JL (sold as part of a large hoard of Cincinnati tavern encased by Barry Krumlauf on eBay in June 1999), EB $75

[ ] (OH)-CIN-VI-10. 1901, SH. Victor Cafe. Wm. Gerdes Propr.// 612 Vine St./ Cin'ti.\\ KMANGB/ IBGL. This SH piece has type 3 reverse, with the bar over "Pat. Apr. 11, 99" extending further to the "A" in Pat. instead of stopping over the "T" as on type 2 and the line outside the letters stopping between the "N" and "D" of And instead of extending well past the "D" as on type 2. The type 2 reverse is on the squat horseshoe Buffalo Pan American Exposition souvenir piece, (NY)-BUF-PX-20. The type 1 reverse was made in 1900 and RI-PRO-YO-10 (the 1900 Geo. F. Young Providence Rhode Island piece) is an example. On type 1, the "I" is well to the left of the "G" in Good and the lines between the rim and the KMANGB do not reach the end of the words And and Never. The order was for Welfare Finance Corp., 616 Walnut Street, Cincinnati for delivery to Lucking Advertising, also Cincinnati. This is quite a prolific piece, with 10 more Osborne orders for it over the years until 1958, with only the last not from Cincinnati, it is also from 1958, for Welfare Finance, Loans from $10.00 to $300.00 for the Welfare Finance Corp., Mennington, West Virginia. Osborne order 764 for "National Finance" was shipped to Welfare Finance in Cincinnati. JL, CW, OS(627, 763) $5

Cleveland (Euclid, Superior and St. Clair are major streets running east out of downtown; Detroit and Lorain Aves. head west, Pearl Road southwest; numbered streets in Cleveland run north/south, even though they are marked “East” and “West.” Numbered streets called “East” are east of the center of town at the Terminal Tower in Public Square; numbered streets called “West” are west of the center of town. Therefore, there are two different Ninth Streets, W 9th Street, running north south a few blocks west of the center of town and E 9th Street further east. This is contrary to how most cities number their streets -- it is unlike New York City, where the numbered streets run east/west and E means east of Fifth Avenue)

[ ] (OH)-(CLE)-AI-10. 1957D, H. Aircraft Workers Alliance// Inc.\\ KMANGB/ IBGL. According to the Ohio Secretary of State’s corporate records, the Aircraft Workers Alliance, Inc. was formed on July 15, 1941 and its existence canceled for failure to file a required statement in 1986. Its principal office was in Cuyahoga County and its registered office in Cleveland. To the best I can tell, it was a union of aircraft workers with only one employer, TRW, Inc. In 1991, the TRW workers voted the union out and elected to affiliate with the UAW, ending this union’s existence. The former ballplayer Luke Easter became the union’s chief steward and was shot to death in a failed robbery in 1967 while carrying $40,000 in union funds. JL, BS#42,27 $15

[ ] OH-CLE-AU-10. 1912, 1913, 1916S or 1917 cent, RD, 35 1/2mm, nickel encasement, all writing incuse. Automatic Amusement Arcade/ [the next two lines are inside a circle, like on many of the celluloid mirrors] The Wm. Gent. Vending Mach. Gent Vending Mach. Co. encased, without address. I believe that it was the Automatic Amusement Arcade that was at 703 Euclid, not the Wm. Gent. Vending Mach. Co., which is why I list this piece here. By 1953, the Gent Machine Co., Arthur Gent president, was at 445 Green Road, South Euclid. Once upon a time, the swastika was a lucky symbol like a horseshoe or a clover. It wasn't until the 30s and 40s that its reputation was tarnished by association. I suspect that circulated cents were used in this piece. EB; EB, BP; JL; TS, MK, KK346, BS#38,1711 $150

[ ] (OH)-CLE-BE-30. 1954D, H, holed at bottom. 19 Belke 55/ A.E.S. Convention// Cleveland/ [hole]\\ KMAHGL/ IBGL. I am not completely sure who or what "Belke" is; there is no Belke business listing in the 1953 Dun & Bradstreet, and the only "Belke" listings in the 1953 and 1957 Cleveland directories are three individuals, including Edward Belke, listed as a core maker, and Ester, a nurse. The 42nd annual convention of the American Electroplaters Society was indeed held in Cleveland in 1955. Because a "core maker" is a person who makes cores, i.e., the iron in the center of an electromagnet, for foundry moulds and so would very likely be seen at an electroplaters convention, I think it is likely that Edward Belke was the person who gave out this piece during the convention in 1955. [ ] (OH)-CLE-BL-20. 1946, H, holed at bottom. In Cleveland/ It's Bennie Blaushild// Famous for [hole] Good Deals\\ KMANGB/ IBGL. Bennie Blaushild's dealership was actually located in Shaker Heights, just across the Cleveland border. According to the 1947 Cleveland City Directory, "Blaushild Motors" was located at 16333 Kinsman. The city line between Cleveland and Shaker Heights was at 15416 Kinsman. Don't look for 16333 Kinsman Ave. today -- the road is still called Kinsman in Cleveland, but once it enters Shaker Heights, it is now called Chagrin Boulevard. However, when Blaushild made his encased pieces, he said he was from Cleveland. And therefore so shall I. "Blaushild B. W. Motors, Inc." and Blaushild Motor Co. (Inc.)," the second also in Erie Pennsylvania, are listed in the 1947 Ohio Dun & Bradstreet as a auto dealer under Cleveland. I cannot find any listing for Bennie in the 1953 Cleveland City Directory, although that is consistent with his location in Shaker Heights. This is the largest and longest running Ohio merchant series. JL, JR, BS#62,857 $8

[ ] (OH)-CLE-BL-22. 1947, H, holed at bottom. Same words as on the -20 and -24, but clearly a different dies, as the lower line is under letters of the upper line, with the top of the "F" between the "IT" of Its, for example. This is not true on either of the other pieces, where there is no overlap. CW $8

[ ] (OH)-CLE-BL-24. 1948S or 1949, H, holed at bottom. Same words as on the -20 and -22, but a different die than both and the later versions. Here, the bottom line is on the same plane as the top line, while it is closer to the edge on both the -20 and -22, with the -22 even

having overlapping letters as noted there. Also, here, the "In Cleveland" is much smaller than on the -20, and closer to the line below it, much like the -30. However, here the opening "I" in In points to the middle of the first "N" in Bennie below, while on the -30, it points to the left side of that "N." CW; JL $8

[ ] (OH)-(CLE)-BL-26. 1949D, RD,35mm, holed at bottom. Blaushild's Chrysler – Plymouth/ Headquarters// 16005 Kinsman Rd./ WY. [hole] 3000\\ KMAYWHGL. DG listed this with a question mark to NYC and I think as a horseshoe. Although the location was actually just across the city line in Shaker Heights, I am going to list this piece in Cleveland, because Mr. Blaushild said he was from Cleveland on other pieces. EB, DG#102,85 $10

[ ] (OH)-CLE-BL-28. 1950D, H, holed at bottom. Same words as on the -20 but a different die. The "I" in "In" lines up over the far left side of the first "N" in "Bennie" on the -20; on this piece it is over the left side of the second "N." In Cleveland is small on this piece, but way up near the top and so relatively far from the line below (unlike the -24 and -30, where In Cleveland is lower and thus closer to the line below). CK reported a 1950S in his fixed price list AG, item 1440, probably from the mid 90s. JL, EB $6

[ ] (OH)-CLE-BL-30. 1951, H, holed at bottom. Same words as on the -20 and its progeny, but another different die. The top letters ("In Cleveland") are smaller on this die and the "Bennie Blaushild" is much larger. The top two lines are much closer together. The "I" in "In" is above the right side of the first "N" in Bennie. Looks like the same reverse die on all four pieces, -20, -24, -28 and -30. I have not seen the reverse of the -22 to compare. JL, BS#62,857 $6

[ ] (OH)-(CLE)-BL-32. 1951D, RD,35mm. Blaushild's Chrysler-Plymouth/ Headquarters// 16005 Kinsman Rd./ WY [hole] 1-3000\\ KMAYWHGL. This piece and the -26 are the only Blaushild pieces that list an address. It is very near the Blaushild Motors address, probably adjacent to the 16333 that was listed in the 1947 Cleveland directory. Note that between the issuance of the -26 1949D piece and this 1951D piece, Cleveland and Shaker Heights must have gone from 6 to 7 digits. According to the Internet phone exchange website, the WYoming exchange served Shaker Heights, Garfield Heights, University Heights and Beachwood and switched over on 3/4/50 from WY xxxx to WY 1-xxxx. JR $10

[ ] (OH)-CLE-BL-34. 1953D, H, holed at bottom. Same type as the -20 to -30 (except -26), but yet a sixth obverse die. Here, the "I" in In is over the left side of the first "N" in Bennie, like on the -20, but clearly a different die. The "In Cleveland" is smaller here than on the -20 and on the -20, the bottom line, Famous for Good Deals, is completely below the top line, while on this piece, if continued, the bottom line would run into the top line. Still the same reverse, or extremely close. JL, VN $6

[ ] (OH)-CLE-BL-36. 1955D, H, holed at bottom. Same type as -20 to -34, but now the seventh obverse die. Here, the "I" in In is over the middle of the two "N"s in Bennie. Maybe they made a new die of this each year? EB $6

[ ] (OH)-CLE-BL-38. 1956D, H, holed at bottom. Same words as on all the similar pieces, but yet another die. Extremely close to the -22 and -30, just a little different. The "I" in In is

over the middle of the first "N," like on the -24; but here the first "E" in Cleveland is between the "I" and the "E," not over the "E" as on the -24 and -30. JL $6

[ ] (OH)-CLE-BL-40. 1957D, H, holed at bottom. The ninth obverse die. Here the "I" in In is about as far to the right as ever, over the left side of the second "N" in Bennie. The bottom line, Famous for Good Deals starts just under the "I" of Its and finishes just before the "D" in Blaushild. JL $6

[ ] (OH)-CLE-BL-42. 1959D, H, holed at bottom. The tenth obverse die, it is pretty clear that Mr. Blaushild is now making one new piece each year. Here, the "I" in In points down between the two "NN"s in Bennie below, but closer to the second one. JL $6

[ ] (OH)-CLE-BL-44. 1960D, large, H, holed at bottom. Again, the same words as on all the above Bennie Blaushild pieces, but the eleventh obverse die. Here, the "I" in In points to the left of the first "N"; and the first "E" in Cleveland is above the "I." This is an extremely similar reverse die, but it looks to me like a different die than the reverse on the prior pieces; here the "Good" and "Luck" start and finish before the words "Keep" and "Broke" in the horseshoe. JL $6

[ ] (OH)-CLE-BL-46. 1962D or 1964D, H. Same obverse words as all the other Bennie Blaushild Cleveland pieces\\ KMAYWHGL [nothing under the clover]. I have not seen the 1964D piece to compare dies, but the 1962D is different from the -44 in that there is a very noticeable space between the It's and Bennie, and it is immediately obvious that the reverse is different in that it has different words. JL, EB, TS; BS#35,993 $6

[ ] OH-CLE-BR-10. 1946, H. Braden-Sutphin/ Inks// Cleveland/ Ohio\\ KMANGB/ IBGL. The company is still in the ink business in March 2000 at 3650 E. 93rd Street. In fact, the company is expanding. The March 26, 2001, Crain's Cleveland Business third page headline reads: "Braden Sutphin Out to Ink Deal for Abatement, Loan." Those reporters from Crains are quite the punsters. This seems a pretty common piece. JL, EB, TS, JR, DG#100,142, RH(9/4/84),903, KK340 $10

The Leader Building is still standing in downtown Cleveland; in fact, the Federal Coin Exchange (see OH-CLE-FE-10) temporarily moved to the 4th floor of the Leader Building in 1999 when the Arcade closed for renovations. JL, KK341; DL, EK $10

[ ] (OH)-CLE-CA-14. 1939, H. Different die than -CA-12 in that the Caulkins letters are large and the Happy Birthday letters small. EB, DL $10

[ ] (OH)-CLE-CA-20. 1945, 1946 or 1947, RD,35mm, holed at bottom. Cannon of Cleveland// Tailors [hole] Tailors\\ KMAYWHGL. The Cannon Tailoring Co. is listed in the 1947 Ohio Dun & Bradstreet, under Manufacturing and Retail and Wholesale Men's Clothing. Dies here are hard to compare as there are no overlapping letters. VN, EB; JR, TS, JB #8,189; MP $10

[ ] (OH)-CLE-CA-22. 1952D, RD,35mm, holed at bottom. Same words as on the -20, but a different obverse die. The lettering in the two words, "Tailors" is smaller on this piece and is centered between the rim and the cent, taking up only about 1/3 of the space between the rim and the cent. Therefore, there is quite a bit of space between the words Tailors and the rim. On the -10, the Tailors words are right next to the rim and take up over 1/2 the space between the rim and the cent. I "corrected" the mistake by taking out the available P.O. Box 14665 at the post office. I had both 14465 and 14665, so both are right on my pieces. The following quantities were made: New York P (80), D (40) S Clad Proofs (3), S Silver Proofs (1); Ohio P (80), D (40), S Clad Proofs (6), S Silver Proofs (1); Michigan P (40), D (80), S Clad Proofs (5), S Silver Proofs (4). [ ] OH-CLE-LA-18. Various date large cents (see below), RD, 41mm. [star] Cut Above Coins [star] James M. Lawniczak [star] Member EAC & ECI [star]// P.O. Box 14465 Cleveland, Ohio 44114\\ [star each side] United States Large Cents// 1793-1857. I originally had 45 pieces made by Penny Press Mint in March 2009. I kept them on my desk for some time and did not put them away or even look at them and then, in the summer of 2009, noticed that I did not have very many, in fact only 19! The other 26 were missing and as of May 2010 have not been found. I did take some to the basement to clean off dirt with a solvent, did I put those somewhere else? Did a servicer who came into my room over the summer take a handful? Seems unlikely. I don't know. Then in late 2009 I sent in 57 more (but only 56 came back as the 1828 cent was distorted and couldn't be fit into an encasement). So the total made was 101, with 75 accounted for and 26 missing. The dates accounted for with quantity are: 1798 (1); 1803 (2); 1812 (2); 1818 (2); 1822 (1); 1826 (1); 1827 (2); 1828 (1); 1830 (1); 1831 (1); 1832 (3); 1833 (3); 1835 (2); 1836 (2); 1837 (2); 1838 (7); 1839 (3); 1840 (1); 1843 (2); 1846 (7); 1847 (5); 1848 (4); 1850 (2); 1851 (5); 1852 (5); 1853 (1); 1854 (5); 1855 (1); 1856 (1). The dates on the 26 missing pieces are: 1801 (1); 1820 (1); 1837 (2); 1838 (1); 1840 (1); 1841 (2); 1845 (3); 1846 (1); 1847 (2); 1849 (3); 1851(2); 1853 (2); 1854 (2) 1855 (2) and 1856 (1). I am confident that as of May 2010 when I am writing this, I have made the encased piece with the earliest date U.S. coin in it (the 1798 large cent). I wouldn't surprise me that someone will outdo me though in the future. JL $50 (depending somewhat on date)

Canada 354336/ [big star each side]// Insert One Cent/ Return to Store/ Marshall's Drug Stores\\ [nothing on the reverse side]. The Put a Penny series seemed to concentrate on drug stores. In addition to this one, there were Daw's Cut Rate Drugs, Katz, Kinsels (see (MI)-(DET)-KI-10), Mykrantz (see (OH)-(COL)-MY-10), Muir (see (MI)-(GRA)-MU-10), People's (attributed to Washington, D.C.), Republic, Skillern's, Thrifty and probably others. The cent was not struck in, just fits into the cardboard and was intended to be replaced. Any cent can be in there now. The piece was probably put out in the late 30s. According to knowledgeable encased and exonumia dealer Gino Sanfilippo, Marshall's was an Ohio drug store chain, centered in Cleveland, with the owner living in Shaker Heights. According to the 1947 Ohio Dun & Bradstreet, Marshall Drug Co., Inc. was headquartered in Cleveland. It had the highest pecuniary strength and credit rating. Marshall Drug Co. is listed in the 1957 Cleveland phone directory with its general offices and warehouse at Lakeside and W 9th Street and with branches up to No. 77 listed at individual addresses and phone numbers (there are not 77 stores though because about half the numbers are missing) JL, EB $3

[ ] OH-CLE-MA-20. 1946, H, holed at top. A. Mazewski NA [hole] Dyrektora Z.N.P./ Pamiatka Sejmu// XXX Z.N.P./ Cleveland, O.\\ KMANGB/ IBGL. A Polish encased. Pamiatka Sejmu means remembrance of the convention. Z.N.P. stands for Zwiazek Narodowy Polski (the Polish National Alliance). According to its website, Alojzy Mazewski was from Chicago, became a director of the Z.N.P. in 1947 and was its president from 1967-1988. Also according to its website, the Z.N.P.'s 30th convention was held in August 1947 in Cleveland. Mr. Mazewski also made an encased piece for the 31st convention in Buffalo in September 1951 (with 1950D cent -- NY-BUF-MA-10) and for the September 1955 convention in Minneapolis (with 1955D cent, MN-MIN-MA-10). He most likely handed out these three pieces at those conventions. I do not know if he made a piece for the 1959 convention in Hartford or subsequent conventions. The Polish National Alliance is a fraternal insurance benefit association. Its existence was necessary because regular insurance companies would not sell life insurance to the Polish immigrants in the late 1800s and early 1900s because they worked in the most dangerous jobs. Therefore, the Poles had to create their own insurance companies. This was mostly to cover burial expenses. My grandfather was a Vice President of the Union of Poles in America based in Cleveland, which sold life insurance too. He bought a policy for me

in 1952 (the year after my birth) and today it has a cash value of a couple hundred dollars. JL, EB, JR $10

Appld. for." on it, which I have called reverse die A1 on the Buffalo Pan American Exposition pieces. This piece was therefore likely made early in 1901, before the language of the die changed to "Pat. Apr. 23, 1901." The patent referred to on the pieces is U.S. design patent no. 34,390, issued to Matthew J. and Francis M. Owens of Boston, Massachusetts for an "Advertising-Badge." I have heard of so many different dates on this piece, I am not sure what is original; this may be the Ohio encased that most often has a replaced cent. Examine all pieces with care and report any genuine dates to me. I have the 1909 VDB and it is either the original or a very excellent fake. I like the 1909 date for a couple reasons: (1) the same slogan that is on this piece is on the above 1901 piece, and it would be strange for a company to stay in business for 40 years and keep the same slogan; (2) my experience with encased cents tells me that it was in the early 1900s that what seem like unnatural periods were used on pieces (such as after "Clothiers" and "Cleveland" here; and (3) there is no McWatters or Dolan listed under Cleveland in the 1940 D & B, making the 1940s and 1950s pieces very suspect). JL, EB (two pieces widely apart in time with 1909 VDB) $45 if original – other known dates: EB (1949D); JR (1951D) (other dates are reported by BS #45,25 (with replaced cent), TS (1902 and 1957D), CDG#34 (1941) and DR (1941, but that it is not in tight) $15

I believe that a year 1915 encased piece is the scarcest of any encased year, thus the "key" piece for the 20th century year set. The 1915 is scarcer than the 1915D (I have never seen or heard of a 1915S). The only encased pieces with a 1915 cent known to me are this piece, the OH-MFE-JV-10B cataloged below and the 1915 H-fob piece for George Burich Saloon, Ahmeek, Michigan, cataloged in my Michigan catalog as MI-AHM-BU-10. National Tailors was an early Ohio chain with stores in East Liverpool, see OH-ELI-NA-10 (1906), Toledo, OH-TOL-NA-10 (1917) and Youngstown, OH-YOU-NA-10 (1914); all but the Toledo piece also advertised suits and overcoats for $15 and $18.50. [ ] (OH)-CLE-NA-30. 1946, RD, 35mm, holed at top. The National [hole] City Bank// of Cleveland\\ [blank reverse]. This piece was pictured and discussed in an article by Cliff Michler in the June 10, 2003 issue of Numismatic News at 29. Mr. Michler noted that the piece he bought had a 1943 steel cent encased, and commented: "Very few steel encased issues are documented, this one being truly unusual because the reverse does not carry one of the typical lucky penny designs." I agree with the second part of the comment, but I disagree that there is any documentation that this is one of the documented steel cent encased pieces, as I believe that the 1946 cent known in all other versions of this piece is the original, making the 1943 a replacement. Indeed the reverse of the 1943 cent in the picture in NN looks like it is not set appropriately flatly. JL, VN, JR $8

On the -30, the distance between the left top of the "T" in The to the "O" in Of is 5mm, on this piece, it is 4mm. JL $8

Nunn's funeral parlor at Woodland Ave. and E. 81st Street in Cleveland. Wm. A. Nunn is listed as an Undertaker in the 1940 Dun & Bradstreet. The 1934 Cleveland Address Telephone Directory lists William A. Nunn at 8101 Woodland Ave. with phone GA-2692, the phone on this piece. According to that website and to the Yahoo map website, 3130 Mayfield Road, 44118 is in Cleveland. But that is not right. 3130 Mayfield is east of Monticello and Lee, up in the Heights and is in Cleveland Heights. I already knew this without checking, but I called the Cleveland Heights City Hall, who verified that the 3130 Mayfield Road address is indeed Cleveland Heights. [ ] OH-COL-BC-10. 1998D, RD,35mm, holed at top. Central Ohio Chapter BCA/ 25th Anniversary 1974-1999// Columbus, Ohio/ Buicks are Fine in 1999\\ KMANGB. I do not believe the maker paid much attention to how they put the cents in these. I have seen two, one rotated 180 degrees and the other 90 degrees. This reminds me of how most cents are indeed properly positioned into the encasement holders. Because the cent obverse almost always faces the reverse, "KMANGB" side, my guess is that that side was the top die on the piece. The person striking the piece probably placed the cent, obverse side up, in the aluminum planchet. JL $2

[ ] (OH)-(COL)-BE-10. 1946, H, holed at bottom. Bentley's/ If Lost/ [to left of cent going up] Jewelers [to right of cent going down] Clothiers// Return/ 172 S. [hole] High St.\\ KMANGB/ IBGL. Bentley's is listed in the 1953 Columbus phone directory at 172 S. High, phone FLetcher 4395. It is listed in the yellow pages under Clothing, but not under Jewelers. I believe Bentley's was a chain with stores in other cities, as there are at least two more maverick pieces like this: (1) one with 1947 cent but address 522 W. Wis. Ave. attributed to Milwaukee in

JB's Wisconsin encased catalog (catalog no. JB-60) and (2) another also with 1946 cent and address 125 E. 12th St. That piece is AM(793) and was attributed as possibly Chicago in issue 25 of the Casement but is listed to St. Louis in the Missouri catalog. There is no Bentley listing in either the 1947 or 1951 Ohio Dun & Bradstreet, so corporate headquarters was not in Columbus. JL, EB $10

[ ] (OH)-(COL)-BE-12. 1947, H, holed at bottom. Same location as on the -10 1946, but a different obverse die, as shown by the fact that this piece says "If Found" in the second line, while the -10 says, "If Lost." Maybe some customers commented on the 1946, "If Lost" piece to the effect that a lost piece couldn't be returned. Looks like different reverse dies too, with the clover stem on the -10 having a much more pronounced turn to the left than this piece has. The 1947 522 W. Wis. Ave. Bentley piece also says "If Found" as on this piece, while the 1946 125 E. 12th St. piece says "If Lost." Therefore, it looks like all the 1946 pieces say "If Lost," while the 1947 pieces say "If Found." JL $10

I guess he must have died between 1947 and 1953 because he was not listed under Funeral Directors in that year's Columbus directory yellow pages, and only Mrs. Floyd Born was listed in the white pages. The business must have been sold to Schoedinger funeral directors as their "Hilltop Chapel" is listed in the 1953 yellow pages at 2542 West Broad Street with Mr. Born's two phone numbers, RAndolph 5627 and 3439. Expo Ohio is another name for the annual Ohio State fair held each August in Columbus. In Columbus on I-71, exit 111 is for the Ohio State Fair and the Ohio Expo. Like the (OH)-(LAN)-FA-20 piece for the 1971 Fairfield County fair, this piece was made by Allen Karn, owner of Allen's Coin Shop (see OH-WES-AL-10 through -16). Ed Karn, Allen's son, told me that they had the pieces made to sell as souvenirs at the two fairs, where they had set up a booth. Like with the Fairfield County fair piece, a variety of different dated cents were sent to the manufacturer with the order. Surprisingly, the only example of this piece in Ed Karn's collection is one with no cent in it; my guess is that was a manufacturing reject. The cent obverse faces the encasement obverse on this piece. EB, JT; JL; MM; CD, VN, BS#38,124; JL, VN; BP; JL, AA#6,m54 $5

This is similar to the -12, except for the 1906 cent and the 1906 date on the piece itself. Mr. Kolman has this piece with a 1908 cent in it, and he hypothesizes that this piece was made for several years because the 1908 cent is in a mirror which still has the date 1906 on the piece itself. A good guess if you had only seen this piece and not the -12 and -14. More likely, the 1908 is a replacement. There are also Hauger & Kibler pieces in Cleveland (OH-CLE-HA-20) and Dayton (OH-DAY-HA-10) in Ohio as well as in other Midwestern states. Mr. Hauger expanded his business across the Midwest. There is another mirror with a 1926 cent for the Chas. C. Hauger Co., without location given, which says, "Forty Associate Stores." There are also Kibler only pieces at this same address. This piece is very similar to the -10, with the only real difference that "West" is spelled out on this piece. The -10 and -12 are the pieces for Kibler's where the address is only 22 West Spring, not 22-24 West Spring. It is likely that 22 West Spring is where Kibler started. However, the 1906 and 1907 pieces for Hauger and Kibler, OH-COL-HA-10 and -12, have the 22-24 West Spring St. address. Another of this type appeared on eBay in March 2003 with a 1913 cent in it, and one in 2008 had a 1911. EB; EK $80

A copy of the obverse of this piece is on the ohiolions.org website, listed as a 1971 convention souvenir. Lion Bill Keller, MD13 Webmaster, told me that the piece was passed out to convention attendees at the 52nd District 13 State Lions Convention held in Columbus May 21-23, 1971 at the Neil House Hotel. In addition the Lion state office in 1971 was also in Columbus at the Southern Hotel, now the Westin on S. High Street. Other information indicates that Lion District 13 was all of Ohio, which has 10 districts – 13-A through 13-K. I believe this is sufficient to appropriately attribute this piece to Columbus. I had an insurance insolvency case in Columbus that started in 1998, and I went down there once or twice a month for many years. The case ended in 2010. There was a large permanent sign attached to the building at 171 S. High Street on the way to the courthouse that said, "Lynn's Jewelers." A "Moses Jewelers" sign has been plastered over the signs on the door and on the face of the building. I went in and found out that the Lynns (that was their last name) had been in the jewelry business in Columbus for about seventy five years and just went out of business in 1998. Eventually, the permanent sign with Lynn's Jewelers came down. According to the Ohio Secretary of State's Corporate Records, Lynn's Jewelers, Inc. was incorporated on August 17, 1948 and dissolved in 1999. The same words are on both pieces, but I didn't see the 1950D to compare for sure. VN; DR $10

JR bought this piece from Jerry Schaeper of Covington Kentucky, who told JR it was from Columbus. This establishment is not listed in the 1953 Columbus phone book, but that book did verify AXminster 4-xxxx as a Columbus exchange. 2165 North High Street is indeed a Columbus address, about three miles north of downtown. In 2002, a gas station .2 miles from the location has phone number that starts 29 (AX) 4-, Auddino's Italian Bakery, 1.4 miles away, has phone number 294-2577. BP found Margaret's Confectionery and Carry Out Store, with more than one business, in his 1955 Dun & Bradstreet. It was still listed in 1961, coded as a candy, nut and confectionery store. According to the Ohio Secretary of State website, the Roberts Plumbing Company was based in Columbus and was incorporated on April 15, 1905 and was still active at the end of 2001. Based on that fact, the -12 piece below, the fact that 921 Mt. Vernon Ave. is a Columbus address, not far from downtown and the fact that I located this piece in a Columbus collection, I am willing to accept this piece as verified. The Roberts Plumbing Co. is also listed in the 1947 Ohio Dun & Bradstreet under Columbus and in the 1953 Columbus phone directory, at 1574 Main Street, with phone no. FA. 2146 (see -12 below). This piece has a very unusual and different design on the obverse and the reverse. is also an unusual style, without "IBGL" at the bottom. I was looking at a copy of my third draft of this catalog when I saw this piece in Allen's Coin Shop and so I checked very carefully. The Shoe Box and also Sammy Grossman are indeed listed at 169 N. High, phone Main 9222 in the 1954 Columbus phone directory, so the business must either have moved between this piece and the production of the -12 1959D, or the address changed. The first two Shoe Box pieces are verified by the listing in the Columbus directory and also by the 1964 and later pieces. JL, EB, EK $8

This piece has different obverse and reverse dies than the -16, even though both pieces have the exact same wording. On this piece, the initial "T" in The points down between the "1" and "6" of the address below. On the -16, it points to the right side of the "3." On this reverse, the letters are larger and the clover stem curves to the left. On the -16, the clover stem curves to the right and there is a small wishbone below the Never that is not present on the -14. JL $6

[ ] OH-COL-SH-18. 1971D RD,35mm. Same words as on the -16, but a very slightly different obverse die. On this piece, the first "2" of the phone number is over the middle of the "AM" in Sammy below, with just a small bit on the right side of the "2" over the "M." On the -16, 1968D, the first "2" is over the first "M," just a bit more to the "M"'s left side. I am not sure how they can make the dies so close, although it may just be coincidence. The top line in particular, is almost perfectly matched up, only the "X" of Box has a slightly different orientation, that I can see. The letters on the obverse of the -18 are quite sharp and in very high relief. JL $6

[ ] OH-COL-SH-18. 1974D, RD,35mm. Same words as on the -16, but a different obverse die. On this piece, the initial "T" in The points to the left of the "N" in No. On the -16, it points to the left side of the "3" in 163. EB (obv. only pictured) $6

A look at the address on google maps pictured what could once have been a church. Then Roger Serratt emailed me in December 2013, informing me that St. Gabriel was indeed a Catholic Churcy in his old neighborhood and was at the address on the piece. I assume the piece is saying that there is bingo Monday, Tuesday and Thursday. RS, EB $5

[ ] OH-COL-UN-12. 1936 or 1937, RD,35mm. Same obverse die as -UN-10. JL, EB, DG#113,958; EB, JR, BW $7

[ ] OH-COL-UN-14. 1938, 1939 or 1940. These pieces have the same wording as on the pieces above. However, there is a different obverse die than on the -10 and -12: on this piece the final "O" in Ohio is between the Union and Co., while on the -10 and -12 pieces, the "o" is under

the left side of the "C" in Co. This looks like the same reverse die as on -12. I do not know whether the 1940 is a different die as I have not seen that piece. EB, JSt, BW, CK#133,2182, AA#20,m-69; JL, EB; DG#101,91, BS#37,74, BS#43,88 $6

It is in Powell, about 20 miles north of downtown into the next county north of Columbus, Delaware county. Because everyone who has this piece expects to find it listed under Columbus and because a zoo is a public facility, I have listed it here. I struggled with this a bit, as I am being somewhat inconsistent here with my treatment of the "Buffalo Raceway" piece, which I put under Hamburg, the city where the Buffalo Raceway is actually located, in the New York encased catalog. The only difference is that the Raceway is a business and the zoo is a public facility. The Detroit Zoo is not in Detroit either (it is in Royal Oak), but I have similarly cataloged those pieces to Detroit. JL, CD, JR, EB $5

[on paper insert at the bottom]: John Berry/ Distributors/ of Home/ Furnishings\\ Phone/ Springfield/ 2-0645/ Sample #88 [in the plastic]: KMANGB. There is no address on this piece, and this is the only John Berry piece with a phone number. According to the phone exchange website, there has never been a Springfield or SP phone exchange in Dayton. The "Sample #88" gives this one away -- this and the other related pieces for the fictitious John Berry, Berry Bros., Inc. and the John

Berry Co. are all stock sample pieces to show prospects what this advertising piece looks like. See, OH-DAY-JO-10 and -12 for two pieces for the fictitious John Berry Company. In June 2002, a salesman sample of 12 different pieces, including this piece, was offered for sale on eBay. The address for Berry Bros. Inc. and the John Berry Company at 655 Smith Street in Dayton does not exist. Perhaps, however, there was some realism in these sample pieces -- there is a Berry Co. in Dayton in 2000 in the Communications, Advertising and Marketing business.

In 2002, another piece came on for sale on eBay for Ace Supply Co., W. Hartford, Phone 2-3417, also "Sample No. 88" at the end and in 2005 a similar piece for the same "company" but with phone DE 7-5035, and Sample #AM-88 on it. There is no Ace Supply Co. in West Hartford in either the 1953 or the 1960 Dun & Bradstreet. I have another for Merit Transport Co., DE 1-6972 also with Sample #AM-88 on it. Finally, there is an interesting piece for what I think was a paid order from a real business with 1959 cent that says: "Jackson Parish Bank Member F.D.I.C. 88." However, I wonder why a real business would let the #88 be put on its piece.

I think they just used a lot of fictitious companies for their sample pieces instead of using stock pieces with no advertising, as was common with aluminum pieces. I suspect these plastic pieces with paper inserts were made, or at least sold, by the Newton Manufacturing Co. of Newton Iowa -- there is a piece of this type solely for the Newton Mfg. Co., and another with the Newton Co. on one side of the paper insert and with its representative Jim Chapman of Wytheville, Va. on the other, and there are other pieces for Newton salesmen.

There is a "Berry Bros." listed in the 1950 Dayton phone directory in the "flrs" business at 2926 Hoover, phone MUrray 2083 and a Berry Bros. Paints at 42 N. Jefferson, but no Berry or John Berry of any kind in the home furnishing business. EB; JL $10

[ ] (OH)-(DAY)-FR-10. 1932, RD,32mm. [very small star each side] Make It a// Frigidaire '34\\ Lucky Penny// [small star inside a small horseshoe]. Although this piece suggests buying a Frigidaire in 1934, all pieces that I know of have 1932 dates in them. Frigidaires are still being produced in 2001, so I went on their website and sent them an email asking about their corporate history. I learned in response that Frigidaire was a division of the General Motors Corporation in 1932 and until 1979 with division headquarters at that time in Dayton. In 1979, it was sold to White Consolidated Industries, Inc. and continued to operate out of Dayton as a division of that company. In 1986, it was sold to the Electrolux Home Products group, a Swedish operation, with North American Headquarters in Augusta, Georgia. The Frigidaire Division of General Motors Corp. is listed in the 1947 Ohio Dun & Bradstreet, with the highest possible credit. It is also listed in both the 1941 and 1950 Dayton phone directories with general offices and factory at 300 Taylor. This piece is fairly common but seems to command higher prices than I expect. JL $12

[ ] (OH)-(DAY)-FR-20. 1946, H. "Frankie's Forest Park"\\ KMANGB/ IBGL. According to the Southwest Ohio Amusement Park Historical Society, Frankie's Forest Park was an amusement park in Dayton. There are 17 different old amusement parks listed on their website as of March 2001. Frankie's Amusements, Inc. is listed as a Park in the 1947 Ohio Dun & Bradstreet, and Frankie's Forest Pk is listed with office at 4300 N. Main in both the 1941 and 1950 Dayton phone directories. The store moved between 1906 and 1908. I am not sure whether the EK piece with 1907 cent is or is not different than this piece. I originally wrote down that it said "We Save You $5.00 Every Time and then also "Good Luck to You in 1908" but each of those slogans always appears in smaller letters directly above the cent and I don't know of any piece that ever had both of them on the same piece (see the OH-COL-HA-10 et seq. pieces). [ ] (OH)-(DAY)-HA-26. 1950D, H. Harris'/ 5th & Jefferson// Clothes for/ The Entire Family. This piece is different than the -20 through -24 in that now the reference is to the entire family, not just Men and Women. It is a different die than the -28 and -30 pieces which have the same words, in that on this piece, the "R" in For is over the "L" in Family, while on the -28, it is between the "L" and "Y" and on the -30, it is between the "I" and "L." [ ] (OH)-(DAY)-MI-20. 1949, white plastic H, holed at top, cent shows through only on front, words on the plastic on the back: Miller's/ Pharmacy/ 1133 Brown St./ HE 5101. 1133 Brown is a Dayton address, near the intersection of Ohio 48 and US 35. According to the Internet phone exchange website, HEmlock was a Dayton exchange until Dayton switched over to 7 digits in 1957, when it became BAldwin 2. Ned B. Miller shows up in the 1947 Ohio Dun & Bradstreet in the drug business. JR reports that he bought the piece from Gaylor Lipscomb who attributed it to Dayton. I originally determined that all the above was sufficient to absolutely verify the piece in my mind. Then I obtained a 1950 Dayton phone directory, and any

possible doubt was removed when I found a listing for Ned B. Miller drugs at 1133 Brown, phone HEmlk-5101. JR $10

[ ] OH-DAY-MO-10. 1947D or 1948, RD,32mm, probably holed at top. Morgan [hole] Sales/ Inc.// [running down at bottom left of cent] Kaiser [running down at bottom right of cent] [small star] Frazer/ Dayton, Ohio\\ KMAYWHGL. Bob described the piece as having a hole and my piece has a hole which looks to me as if it had been added because it cuts into the "Inc." (but see my comments in the introduction on how it is impossible to tell whether all pieces, or just one piece, were holed). Morgan Sales was a dealer for the Kaiser Frazer Automobile Corp., which made automobiles at its Willow Run Michigan plant and elsewhere from 1946 to 1955. Both the Kaiser and the Frazer were automobiles introduced after the war to meet an insatiable demand by the American public. Today, there is a Kaiser Frazer Owners Club and strong demand for Kaiser Frazer collectibles. JL, TH; BS#67,48, BS#43,90 $20

The first three pieces of this series have the same words but very slightly different obverse dies. On this piece, the "I" in Main points up to the "I" in Pontiac. On the -12, 1949 piece, it points up to the space between the "I" and "A." On the -14, 1951D piece, it points up to the left side of the "A." JL, EB, SA#10,464 $12

[ ] OH-DAY-PA-12. 1949, H, holed at bottom. Same words as on the -10, with the differences as noted above. JL, JR $12

[ ] OH-DAY-PA-14. 1950S, H, holed at bottom. Same words as on all the –PA-10 to -16 pieces and here, like on the -10, the "I" in Main points up to the "I" in Pontiac. But here, the "5" in 520 is below the "O" in Poddock, while on the -10 it is below the right side of the second "D." CW $8

[ ] OH-DAY-PA-16. 1951 or 1951D, H, holed at bottom. Same words as on the -10, but a third obverse die, as noted in the -10 description. On the 1951s, the "I" points up to the left side of the "A." EB, CW; EB, EK $10

[ ] OH-DAY-PA-18. 1953D, H, holed at bottom. HEmlock 8691/ Paddock Pontiac Co.// 520 N. Main St./ Dayton [hole] Ohio. The eBay photo was clear above the cent, a bit hard to read below the cent and the reverse was not pictured. The eBay seller announced this as a 1953, but I assume it was almost certainly a 1953D, as 1953 is extremely rare. EB, CW $10

[ ] OH-DAY-PA-24. 1960D, H, holed at top. Same words on the obverse as on the -20, but I believe a slightly different die, even though the eBay picture of this piece is not that crisp. First, it sure looks like a typo on this piece and that it says: "Sy." instead of "St." Second, the period after "Sy." is over the right side of the "O" in Ohio here, while it is to the right of the "O" on the -20. The reverse was not pictured. EB $8

[ ] (OH)-(DAY)-PE-10. 1952 or 1953 Franklin half, RD,43mm, Brass. [two small dots each side] The Peerless Beverage Company// Pabst Blue Ribbon\\ KMANGB// [star]. Tom Casper reported that this company was identified to Dayton by a token sold by BS, which said: "The Peerless Beverage Co./ Pabst Blue Ribbon/ Dayton, Ohio." No Peerless or Pabst tokens are listed under Dayton in LOMT. There were thousands of bottling companies around the country that distributed Pabst Blue Ribbon. The Peerless Beverage Co. is indeed listed in the 1947 Ohio Dun & Bradstreet as a Dayton company, with very weak credit. It is also in the 1950 Dayton phone directory, at 214 S. Perry. However, a different Peerless Beverage Co., Inc. is listed as a beer distributor in Union, New Jersey in the 1953 D & B. There also was a Peerless Beverage Co. in Fresno, California. However, based on the Tom Casper report and the fact that the Union distributor has "Inc." in its name and the Dayton one does not, Dayton is much more likely. Sold for $100.99 on eBay in February 2005. Looks like the same dies on the 1952 and 1953 pieces but it is very hard to be sure from the picture as there are no overlapping letters or design elements. The piece is mostly red (all red on the reverse), with a red circle in the middle of the obverse, a very narrow border white circle around that, a larger black circle around that and another white border circle on the outside, with clear plastic over the circles. The lettering is white. On the obverse: [in the black circle] Olds/ Penny/ Motors [Penny and Motors in the central red circle]/ Dayton, O. [back in the black circle at the bottom]. The cent shows through only on the reverse, which has no words, but which has four dashes on each side in the raised horseshoe part. For the only other Ohio piece I know of with this style, see OH-MFE-PE-10. A piece like this came on for sale on eBay in December, 2002, probably for the maker of this type

of piece. It has a 1974D cent in it and was for Quick Point Fine Advertising Specialties, and had the codes, QP-2831P and ASI 8015, on it. [ ] (OH)-(DAY)-SC-10. 1957D, RD,35mm. Re-elect Paul F. Schenck to Congress\\ KMAYWHGL. Paul Fornshell Schenck was U.S Congressman from Dayton from 1951 to 1965. He was a Republican and his streak ended in the Johnson landslide of 1964. He died in 1968. Paul F. [ ] (OH)-(DAY)-SC-12. 1960D, large date, RD,35mm. Same words as on the -10, but a different obverse die. I first thought it was going to be the same obverse die when I noticed that on both pieces the "H" in Schenck extends higher than the "C" next to it. But then I noticed that

the space between the start and end of the lettering was quite different; in fact, on the -10, there is 1.5 centimeters between the start of the "R" and the final "S." On this -12 piece, there is only 1 centimeter. Reverse die looks the same. JL, DG#99,764 $4

[ ] OH-DAY-ST-20. 1948D, RD,35mm. Stomps Sales Co.// 225 S. Main St./ Dayton, Ohio\\ KMANGB. This Chevrolet piece has unusual print -- it is in slightly higher relief than most encased print, with all lettering of the same size. It appears on several other Chevy pieces, though not a large number. Stomps Chevrolet Co. is listed at 225 S. Main in both the 1941 and 1950 Dayton phone directories. I traded one of these to JR for his Chevy collection, but then got another. Thereafter I saw two more, so that this is not all that rare. JL, JR, EB, ACL $14

[ ] OH-DAY-ST-30. 1947, RD,35mm, holed at bottom. Chic Steinbrunner/ Dayton [hole] Ohio\\ KMAYWHGL. Mr. Steinbrunner was in the auto service business, as "Steinbrunner's Chick Serv." is listed in the 1950 Dayton phone directory, with phone MElros-9641, and Anthony A. Steinbrunner is listed in the 1950 Ohio Dun & Bradstreet, in the gasoline service station business. JL, JR $10

[ ] OH-DAY-ST-32. 1949, H, holed at bottom. Chick Steinbrunner/ Dayton, O.// M.E. [hole] 9641\\ KMANGB/ IBGL. JL, JR, EB, VN, RH#10,1037 $10

[ ] (OH)-(DAY)-ST-40. 1947, H. Star Credit Jewelers/ Diamonds-Watches-Silverware// Applicances/ 5th & Ludlow Sts.\\ KMANGB/ IBGL. Star Jewelry & Appliance Co Inc. is listed in the 1951 Ohio D & B under Dayton with start year of 1947. It is listed in the 1950 Dayton phone directory, cross referencing to Star Television & Appliance Co., at 5th and Ludlow, phone MIchigan 0771. JL, EB $10

[ ] (OH)-(DAY)-ST-50. 1957D, RD,32mm. Stotts - Friedman// New Phone/ BAldwin 4-8373\\ KMANGB\ [clover at bottom]. Verified by reference to LOMT,DA6350. In addition, the company and Ray Stotts were listed in the 1950 Dayton phone directory in the radio equipment business with phone MIchigan 8373. The Internet phone exchange website reports that the MIchigan exchange in Dayton did indeed become BAldwin 4- in 1957. Stotts - Friedman was also listed in the 1961 Ohio Dun & Bradstreet in the electronic parts and equipment, radio and television business. VN, EB, AM(548), SA#1,1141 (although I do not know whether the piece that Steve sold in his first sale was this one, or the -42, without the clover) $8

[ ] (OH)-(DAY)-ST-52. 1957D, RD. Same as -ST-50, except there is no clover on the reverse, as reported by VN who bought both pieces together and as verified by a piece that appeared on eBay in April 2003. EB, VN $8

[ ] OH-DAY-SV-10. 1949, H, holed at top. [nothing but the hole above the cent]// [stamped in black ink under the cent] Dayton, Ohio\\ KMANGB/ IBGL. JL, EB $4

[ ] OH-DAY-TH-10. 1958D, RD,35mm. Third National Bank & Trust Co./ Dayton, Ohio// "Your Family Bank"\\ KMANGB. This bank took out two full page ads just before the yellow pages in the 1941 Dayton phone directory, claiming it was "Ohio's Oldest National Bank." The 1958D versions for this merchant are very common, the 1960D piece is very uncommon. JL, CD, RC, BW, EB $4

[ ] OH-DAY-TH-12. 1958D, RD,35mm. Same words as on the -10, but just a slightly different die. On this piece, the beginning quotes before "Your" are mostly above the "R" of Third. On the -10, they are mostly above the "D." I only noticed the second die when I was looking through my Ohio encased collection in 2003, many years after I had acquired the piece. I had kept a second sample of what I had originally thought was the same piece (I do not ordinarily do that), only because my -12 piece had the cent rotated 180 degrees. JL $4

[ ] OH-DAY-TH-14. 1960D, large, RD,35mm. Same words on the -10 and -12 but again just slight differences to make yet a third obverse die. The beginning quotes before "Your" are above the "D" of Third, like on the -10. However, on this piece, the second "T" in Trust points down to the right side of the "K" in Bank, while on the -10, it points to the first of the quote marks. I have only seen or heard of two of the 1960D pieces, the one I bought in an eBay lot and JR's piece. JL, JR $8

[ ] (OH)-(DAY)-WE-10. 1959D, RD,35mm. Wehner Roofing Co./ Since 1850// Heating + Tinning/ Phone LI 8-5957\\ KMANGB. Listed in the 1950 Dayton directory as Wehner Roofing & Tinning Co. This was an unlisted Ohio piece when it came on for sale on eBay as part of a 15 encased piece lot in June 2011 and BP noticed it and attributed it to Dayton. This is because Wehner Roofing & Tinning Co. remains in business in Dayton even in 2012, with established date of 1850, matching this piece. CW, EB $10

[ ] OH-DAY-WH-10. 1947D, RD,35mm. White-Allen Chevrolet, Inc.// 442 No. Main St./ Dayton, Ohio\\ KMANGB [dots around cent]. My piece has a 1959 cent that is tight in it but substantial light shows through at three separate points, it is a replaced cent. The reverse of the piece has a small never under a large bar, which starts to the left of the "N" and ends over the left side of the second "E." This reverse die exactly matches a die from other Chevy pieces from the 1947-48 Chevy series -- e.g., OH-CAN-EW-10 (1947D), OH-MAS-PR-10 (1947D), OH-YOU-ST-10 (1947D). White-Allen Chevrolet Inc was listed in both the 1941 and 1950 Dayton phone directories at 442 N. Main. JL, JR $25 (with original cent)

Dover (fairly large town, 20 miles S of Canton)

[ ] OH-DOV/STS-SY-10. 1910, RD,35mm. [JR reports that this is in "P.T. Barnum type," an elaborate and fairly large type] The Sykes Co./ Canal Dover, O.// [two artistic flowers on each side of the cent] Strasburg, O./ Clothing & Shoes\\ KMANGB. There is no longer any Ohio town named Canal Dover. Effective December 18, 1915, five years after this piece was made, Canal Dover officially changed its name to Dover. There still is a Canal Dover Festival in Dover. JR, DM, EB $40

[ ] OH-DOV-WE-10. 1948D, RD,35mm. Weaver Motor Co.// 226 W. 2nd St./ Dover, Ohio\\ KMANGB. This is a 1947/48 Chevy series piece not listed in ACL. I called the Dover library and the librarian checked the 1949 Dover city directory. Weaver Motor Company sold Chevrolets, Buicks and Cadillacs. This piece has the distinct higher relief lettering type that I have only ever seen on the Chevy pieces, like on OH-MIA-LA-10 and OH-DAY-ST-20. The piece seems pretty common for an unlisted piece. JL, JR, DM, BS#75,130, EB $20

[ ] OH-DOV-ZO-10. 1946, H, holed at bottom. Zollar Nash Sales/ 222 S. Wooster Ave.// Dover, Ohio/ Phone [hole] 35422\\ KMANGB/ IBGL. EB $12

[ ] OH-DOV-ZO-12. 1947, H, holed at bottom. Same words as on the -10, but a different obverse die. On this piece, "Dover, Ohio" is in very small letters, starting and ending below the cent well away from the line above. On the -10, it is in very large letters, starting and ending very near the line above. EB, VN $12

Dublin (suburb of Columbus about 13 miles N and a bit west of Columbus city center -- home of Jack Nicklaus's signature golf course; coin grading service ANACS had its headquarters here until it moved to Austin Texas in 2008)

These pieces were made in 2011, 40 with 1906 cents commemorating the founding date; 4 with 1943 cents just to try to make scarce pieces with interesting coins (a procedure I am in great disagreement with), each of which were only available to members; and 250 each of the two 2011 cents which were made available to the general public. CONA website describing the first two; JL, EB, CW; JL $3

East Akron (According to my Rand McNally Atlas and the Internet, there is a very small town called East Akron, at the junctions of Interstates 77 and 76, right in the heart of Akron)

[ ] OH-EAK-CA-10. 1945, H. Canton Road Furniture/ Phone St. 3210// R.D. No. 1/ E. Akron, Ohio\\ KMANGB/ IBGL. There is a Canton Road in, or near, Akron, about five miles east of where my map shows East Akron to be. Therefore, this store was probably in Akron and the "E." may only be referring to the fact that the store is on the east side. More research is needed, but because the piece says it is from E. Akron and E. Akron actually exists, I have decided to catalog it here. VN, RP $12

East Cleveland (close in inner city suburb E of Cleveland, Shaw High School is located there and I have been its mock trial legal advisor from 2007-2014, each of the first 4 years the team advanced to the state final tournament in Columbus winning at both districts and regionals)

[ ] (OH)-(ECL)-DI-10. 1946, H, holed at top. Diamond's [hole] Men's Shop/ 13600 Euclid Ave.// Arrow Shirts/ Mac-Gregor Sports Wear\\ KMANGB/ IBGL. 13600 Euclid is just across the Cleveland border into East Cleveland. The 1947 Ohio Dun & Bradstreet lists the Diamond's Mens Shop under Cleveland, but refers the East Cleveland listings to Cleveland. Probably because it was in East Cleveland, the store was not in the 1947 Cleveland City Directory under Men's Clothing. That Cleveland City Directory included a cross check -- listing addresses, and in 1947, the listing for 13600 Euclid was for a residence, the owner listed as deceased. However, listed at 13560 Euclid was "Diamond Jos Men's furngs." Starting with the directories of 1951, there was no listing for 13560 Euclid as the Cleveland City Directory stopped listing addresses that were not in Cleveland. TS found this merchant listed in the 1964 Cleveland East Directory. JL, VN $10

[ ] OH-ECL-HE-10. 1947D, RD,35mm. Hewitt Chevrolet Inc.// 14481 Euclid Ave./ E. Cleveland, O.\\ KMANGB. This is just a bit west of East Cleveland's Show High School. JL, JR, EB, BS#75,127 $14

[ ] OH-ECL-KR-10. 1960D large, RD,32mm. Dick Krotz// Coins/ 1482 E. 133rd St E. Cleveland 12, Ohio\\ KMANGB. This was miscataloged to Cleveland in Bryan Ryker's TAMS article. The coin shop was in East Cleveland and the piece lists "E. Cleveland" as the town. So I have put it here not in Cleveland. BR, JL $4

[ ] (OH)-(ECL)-ST-10. 1940, H, plastic with paper insert. On insert piece of paper: Stokes Cafe, 12517 Superior Ave. LI-1-9605\\ on back piece of paper: Liquor - Beer - Wine, Home Cooked Meals - Sandwiches. Stokes is a very famous Cleveland political family (mayor and congressman for years) and the address is in East Cleveland (just across the Cleveland border). TS found this in a 1960 Cleveland City directory, which is about the time I believe that these plastic horseshoe pieces were being made (even the ones with earlier date cents in them). Stokes Cafe was not at 12517 Superior in the 40s or early 50s. There have been quite a few businesses at that address over the years, including one restaurant. Perry's Auto Stores was there in 1937, in 1940 it was Superior Refrigerator Sales Co., then it was vacant in 1942 and the "Scott Wilson Rest." was there in 1943 and throughout the rest of the 40s. Beginning in 1952, the Cleveland City Directory stopped listing addresses on Superior at 12438, the East Cleveland border. In 1960, the criss cross directory listed "Supreme Printing & Stationery" at 12517 Superior. PW $10

The designs on this piece are very similar to the designs on the Leyse Aluminum pieces that are illustrated in the 1930 Leyse brochure that I have (the dash, dot, dash is not identical, the dashes here are shorter than on the later pieces, but the bird like design appears identical. The bird like design might be a crude fleur de lis. Leyse Aluminum was established in 1903, and this may have been one of its earliest encased pieces. See, (OH)-(CLE)-NA-20 for other National Tailors pieces. VN, MK, KK372 $40

[ ] OH-ELY-WI-10. 1959D, RD,32mm. Pro-Tek-Tiv Shoes// Wise Shoe Store/ 562 Cleveland St. Elyria, Ohio\\ KMANGB. This looks like a Fankhauser; it must have been manufactured by Osborne Coinage Co. Prior to Bryan Ryker's article, I would have called this a Fankhauser; but now we know it was just manufactured by the same source that made the Fankhauser pieces. Pro Tek Tiv shoes were also sold in Cuyahoga Falls (OH-CUY-GA-10), Toledo (OH-TOL-WI-10) and Wooster (OH-WOO-AM-10). These pieces are part of a series of encased made for Pro Tek Tiv Shoes in the late 50s similar to the late 40s Chevrolet series, though not on as grand a scale. In addition to the four Ohio pieces noted in this catalog, there are three merchants in Michigan and four in New York as well. There were three ways to list the maker of the shoes: (1) Pro-Tek-Tiv Shoes as on this piece; (2) Pro Tek Tiv Shoes, as on MI-DET-JE-10; and (3) Pro Tek Tiv as on OH-CUY-GA-10, OH-WOO-AM-20 and NY-OSW-PA-10. In each case, as in this one, the piece was for a Pro-Tek-Tiv shoe franchise store. There was also a 1958 series for American Juniors, see the note at OH-CLE-BE-30, and for Little Yankee Shoes, see MI-MON-MA-10. JL $10

[ ] OH-EUC-WE-10. 1971 British 1/2 new penny, RD,43mm, thin brass. Scotch Blends/ "Strathduie"// "The Usual"/ Wellington-Clarke, Ltd., Inc., Euclid O\\ Scotch/ "Glenbruich"// Unblended/ Malt Whisky. This is a common piece, which comes on for sale quite often. Wellington-Clark Ltd., Inc. was an Ohio corporation from Cuyahoga county with an initial filing date of August 31, 1971, around when this piece came out. Its corporate existence was canceled on November 1, 1996 for failure to renew the name. A Scot who submitted a question to me as the "answer man" on the ECI website speculated that this piece may have been attached to bottles of whiskey, something I had not thought of before, but certainly a good possibility. JL, EB, KK373 $8 (although I saw one auction realize a price of $22)

Evandale (small N suburb of Cincinnati)

JSi identified this one to Evandale, which he said was just outside Cincinnati. The owner was Jo Jo Martinelli. JSi's attribution is confirmed by the 1951 greater Cincinnati area phone directory, where Jo-Jo's Tavern is listed at 10122 Reading Ave., Evandale, phone PRinceton 9825. Reading Ave. is still U.S. 42 today, but U.S. 25 has been rerouted, traveling along with I-75, a half mile west. CD $10

The Fairfax Chruch of the Nazarene is still at Hawthorne & Waterson in Fairfax Ohio in 2003. I called the Fairfax clerk's office and the village of Fairfax was not incorporated until the 1950s, so that this was an unincorporated township in 1948. There are many businesses in this area that start with "Fairfax." The Church was not listed in my 1951 Cincinnati phone directory, although other businesses that start with "Fairfax," from this area, were listed. In the Osborne orders, this piece was sent to Reverand Meyer at the address on this piece, but with Cincinnati given as the city. I am still going to leave the piece here to Fairfax because I think that the 1949 address to Cincinnati did not mean that the church was actually in the city limits. JL, EB, OR(193) $20

This was verified to Findlay when cough syrup bottles and packaging for "Dr Drake's Glessco" was sold on eBay and the packaging listed "The Glessner Company, Findlay, Ohio," "used successfully since 1889." There was an Ohio Supreme Court case from 1903 where the Glessner Medicine Company of Findlay Ohio stopped a Dr. Drake from selling cough remedies under the name of "Drake." According to the Ohio Secretary of State website, the Glessner Company remained active until 1962, with principal location in Findlay. Glessner Company, Inc. is listed in the 1953 Dun & Bradstreet in Findlay, in the medicine business. This was attributed to Stamford, Connecticut in volume 23 of the Casement, but that must be wrong. [ ] (OH)-(FIN)-HA-10. 1923, RD,35mm. We Pay 5% on Deposits/ Why Take Less// The Hancock Savings & Loan Co.\\ KMANGB. I called the Findlay public library and they found this bank in the 1923 Findlay City and Hancock County Directory on 212 Ewing Bld., with an advertisement that said "Why Take Less, We Pay 5% on Deposits." The bank opened for business in Findlay on January 1, 1912 and voluntarily closed and liquidated on December 18, 1992. That and the following piece sufficiently verify this piece. By the 1930 directory, the bank had moved to 320 S. Main.

There was a Hancock Savings & Loan Association in Carthage Illinois, but it was founded in 1965. And a Hancock Savings Bank in Los Angeles, founded in 1979.

There is a 1959D round piece (BS#63,1046), which says: Hancock County Federal Savings & Loan/ 1899-1959// 60th Anniversary/ [hole]\\ KMANGB), which I have not listed in the Ohio catalog as this savings institution (founded in 1899) is in Chester (Hancock County) West Virginia. According to its website at www.hcsbank.com/history.htm, the Hancock County Federal Savings & Loan Association of Chester, West Virginia was founded in 1899. In 1959, the year of this piece, it still had the same name and $14,932,707 of assets. In 1991, it converted to a federal mutual bank and became the Hancock County Savings Bank, FSB, which is still its name as I write this in 2003.

Chester is on the Ohio river and is the northernmost point in West Virginia on the panhandle. That reminds me of an excellent trivia question I sometimes ask -- at the time of the outbreak of the civil war, which of the slave states lay the furthest north? It turns out that the northernmost portion of West Virginia (where the Ohio River goes into Pennsylvania, just a bit further north than Chester, as the Ohio River is flowing a bit north) is just a minute or so further north than the northernmost portion of Missouri (the eastern part where the Iowa/Missouri border meets the Des Moines River just before it flows into the Mississippi). Thus, the answer is Virginia because Chester was part of Virginia in 1861. JL, EB $15

Probably the last half of the batch was weakly struck. The Dickelman Mfg. Gries Seed Farms was founded in 1935 and is still in business in March 2000, claiming that it is the largest independently owned seed business in Ohio. Hybrid seed corn is its major product. These encased were probably given to farmers who bought Gries seed in the late 40s and early 50s. I have not seen the 1948D to compare dies. [ ] (OH)-FRE/LIN-LI-10. Unknown date 1962 or later, H, holed at bottom. The Liberty National Bank// Fremont Lindsey\\ KMAHGL/ IBGL. I saw this piece for sale on eBay with a 1944D cent in it and was able to verify it as an Ohio piece in about 10 minutes work. A check on the Internet showed 20 states with a Fremont and 7 states with a Lindsey, but only three states with both. The pair in Ohio is 8.8 miles apart, in Wisconsin 88.5 miles apart and in Alabama 128.9 miles apart. I called the Fremont Ohio library and obtained the following information. In 1956, the National Bank and Liberty Banking Co. merged to form the Liberty National Bank located on West State Street in Fremont. In August 1962, the Lindsey Bank Co. merged into the Liberty National Bank and became the Lindsey branch of the bank. The bank was still in business under the Liberty National Bank name in 1986, but has since, through a series of mergers, become part of the Firstar Bank system. Because the Lindsey branch did not become part of the Liberty National Bank system until 1962, either the examples I have heard of are replaced, or circulated cents were used. What a strange piece, a two city encased for these very small towns. Today Galion has about an 11,000 population, while Corydon is in the low 1000s. I obtained the information on this piece when I saw, in the summer of 2001, that Keith Neely was listed in the personal directory on Yahoo from Corydon, Iowa, and

called the phone number listed. Mr. Nealy had already died by then, but I spoke with his wife who gave me the family history. The Alpagora Topcoat factory was in Galion Ohio, which is where Keith Neely worked as a salesman from 1941 to 1963, when he moved back to Iowa. C.L. VN suggested from an Internet search that this might be Garfield Heights, and indeed Edge Park [with a space] Drug Co. is listed under Cleveland (Garfield Heights says see Cleveland) in the 1960 D & B. It was BR's Osborne orders that sealed this one – a 1965 order (so there should be a non-maverick piece out there to be found, with a later date cent, I do not know if it has the same dies) was for "Edgepark Leader Drug, Garfield Blvd. & Turner Rd. [ ] (OH)-GRE-EB-10. 1958D, H. Green Township/ Sesquicentennial/ 1809/ 1959// Earl Bayer/ E & B Bar/ MO 1 - 9801\\ KMAYWHGL. According to its Internet site, Green Township Ohio was founded in 1809 by hunters and trappers. It soon became a farming community. In 1960 there were more than 37,300 residents and, by the 1990 census, over 50,000, which made Green Township the second largest township in Ohio. In addition to matching to founding date of the Ohio Green Township, E & B Bar is listed under the tavern business under Cincinnati in the 1960 D & B, and the MO phone exchange (661 amd 662) is indeed from Green Township Ohio. "Hilliards" is indeed what is on the piece, and the town was originally called "Hilliard's Station," and thus has been known as both Hilliard and Hilliards in its history. The piece has the high relief lettering like on OH-DAY-ST-20, and so I knew it was a Chevy piece before I looked Alder up in the 1947 D & B, where it was indeed listed as an Auto Dealer under "Hilliards." [ ] OH-(IND)-MA-10. 1937, H, plastic, holed at top. On paper insert: Bob Mangol/ Sohio/ Route #21 &/ Sprague/ JA 6-7464\\ [rev. has same printing]. Sohio was the trade name for the Standard Oil Company of Ohio, until eventually bought out by British Petroleum. Sprague Road dead ends into Route 21 (Brecksville Road). The north side of Sprague is in Independence and the south side is in Brecksville. Through calls to the Brecksville and Independence libraries, I verified that Bob Mangol's station was on the north side of Sprague and so in Independence. There is still a gas station there, but it is no longer Bob Mangol's. Mangol has moved to a new address in Independence where his son now runs a garage, not a gas station. JSt $15

Mr. Glenford Gerber wrote me in March 2001 asking if I knew who still made encased cents. I responded telling him that Mintage Masters in Kewaunee, Wisconsin was the only current manufacturer known to me and asking him to let me know if he made a piece. In June, I received this piece and a nice letter from Mr. Gerber. His father, E.P. Gerber founded the lumber company in Kidron in 1901. At that time it was the second lumber company in Kidron, but by 2001 it had outlasted the competition and was the only lumber company remaining in business in Kidron. E.P. Gerber & Son is listed in the hardware and lumber business in the 1947 Ohio Dun & Bradstreet. It is now January 2003 and I have never seen this piece offered for sale. JL $3

[ ] OH-LIM-DE-10. 1946, RD,35mm, holed at bottom. Detroit Ball Bearing Co. of Ohio/ 639 North Main St.// Lima/ [hole]\\ KMAYWHGL. This is part of a series of 1946 pieces made, but this is the only one that I know of that is not for the Detroit Ball Bearing Co. of Michigan. That was a large business, which was a distributor of bearings, power transmission and other automotive products. According to the Michigan corporation website, the Invetech Company was formed in 1917 and used "Detroit Ball Bearing Company of Michigan" as an assumed name. Its agent was in Detroit and all indications from the Internet sites are that its corporate headquarters were in Detroit. It had operations all over Michigan and indeed the country -- at one point it had three large distribution centers and 86 branch locations in 19 states. It was acquired by a large Cleveland based corporation, Applied Industrial Technologies in 1997, a company which Invetech itself had once owned, which announced that it was acquiring Detroit based Invetech. This corporate history was confirmed by an email from Applied Technologies. The other known pieces in the series are a generic piece that I have attributed to Detroit ((MI)-

(DET)-DE-20) and for locations in Detroit MI-DET-DE-22; Grand Rapids MI-GRA-DE-10; Kalamazoo MI-KAZ-DE-10; and Saginaw MI-SAG-DE-10. JL, EB $10

[ ] (OH)-LIM/STM-GO-10. 1952D, H, holed at top. Lima - Goodyear [hole] Service - St. Marys// Lucky Number/ [four digit incuse number in bar at bottom]\\ KMANGB/IBGL. A two city lucky number encased. Lima and St. Marys are 17 miles apart. Goodyear Service is very generic; therefore to verify this piece, I checked every state which had both a Lima and a St. Marys. There were three. The cities are 192 miles apart in Iowa, 17 miles apart in Ohio and 295 miles apart in Pennsylvania. In BP's 1955 Dun & Bradstreet, Goodyear Service is listed in St. Marys (though not in Lima) as a branch of the Akron company. Therefore, I consider this piece attributed to Ohio. JL, CD, BW $10

[ ] (OH)-(LIM)-LI-10. 1958D, H. Lima Loan Co./ Loans & Financing// Est. 1902/ 5% Paid on Investments\\ KMANGB/ IBGL. Attributed to Lima Ohio without verification in issue 7 of the Casement. However, I believe the following information from the Internet is sufficient verification. There are two obituaries of people who worked at the Lima Loan Co., one from Lima, the other the office manager of the Findlay (Ohio) branch. There is a 1933 Hancock County centennial program on the Internet and the Lima Loan Company, Findlay branch took out an advertisement. According to the Ohio Secretary of State, the Lima Loan Company of Lima filed its articles of incorporation on June 16, 1958, which were cancelled in 1980. This is not inconsistent with the company having begun in 1902, as it could have been an unincorporated business until 1958. The Osborne record piece was delivered to Lima Loan Co., 136 S. State St., Marion, Ohio. The order said, "Rush for Xmas." Note that (OH)-(MAI)-MA-10 is a very similar 1958D horseshoe piece for Marion Loan Co., which was also delivered in time for Xmas at the very same address, 136 S. State St., Marion, Ohio! That may have been a related company owned by the same people. Although the Osborne records show that one Lima Loan piece was delivered to Marion (seems unlikely there would be a branch of the Lima Loan Co. in Marion when the Marion Loan Co. was there at the same address) and the second (the LI-12 below) to the Findlay branch, I believe that Lima is still the best attribution and there is nothing about either branch on any of the pieces. [ ] OH-MAN-CL-12. 1962D, RD,32mm. Clover Leaf Plastics / Coin Holders// W. Mansfield, O./ Box 154-323 Park Ave. W.\\ KMANGB. This is interesting and was a bit of a mystery. Bryan Ryker attributed this piece to a city called W. Mansfield Ohio, but that cannot be. Although W. Mansfield is indeed west of Mansfield, it is nowhere near it -- it is NW of Columbus, about 65 miles SW of Mansfield. As this piece has the same address as OH-MAN-CL-10, the two places cannot be 65 miles apart. I have an example of this piece where the "W" has been punched out, which I sent on to Bryan in January, 2026. My guess is that the "W" before Mansfield on this piece was simply an error and Clover Leaf punched out the "W" to correct the error before they gave it to their customers. The second batch made for Clover Leaf was then made correctly and is the -CL-10. This piece is also a different die than OH-MAN-CL-10; the signature is different. $3, with or without the punched out "W." BR, JL $3

According to the Ohio Secretary of State website, the Mansfield Building & Loan Association was founded in Mansfield, Ohio in 1876 and was merged out of existence in 1982. However, there are 18 other Mansfields in the United States, most of them small. The 542- phone prefix is not a prefix I can find used in Mansfield Ohio in 2001. The piece is oriented so that the hole on the reverse is through the clover at the bottom, yet to the right on the obverse. The cent obverse is thus right side up on the encasement reverse, yet appears rotated 90 degrees to the obverse. This is not verified to Ohio -- there are 18 S. Main Streets in Mansfield Ohio, Massachusetts and Pennsylvania. No National Credit Clothing is listed in any Mansfield in the 1953 Dun & Bradstreet. It was probably a chain and would have been listed under the actual owner's name. JL $10

[ ] (OH)-(MAN)-WE-10. 1953D, RD,35mm. Westinghouse Ranges Turn// Pennies Into Profit\\ KMANGB. JR told me he called Westinghouse and learned that the range division was located in Mansfield back in the early 50s. This piece was identified to both Pittsburgh and Mansfield in ACE Casement issue no. 23. Al Zaika checked the Thomas Register of American Manufacturers and his information checked with JR's: the Westinghouse Range, Washer and Dryers Div., was in Mansfield Ohio. My 1947 Ohio Dun & Bradstreet lists Westinghouse Electric Corp as a branch of the Pittsburgh company. The identification to Pittsburgh was based on knowledge that Westinghouse itself was located in Pittsburgh. This is similar to the Frigidaire piece ((OH)-(DAY)-FR-10), where Frigidaire, located in Dayton, was a division of General Motors, located in Detroit. If this piece were just about Westinghouse, Pittsburgh is correct. Because it is specifically about Westinghouse Ranges, Mansfield is correct. JR, AM(905) $8

I took the back roads heading home and soon saw that I was near to Marengo, so I drove through the town. There was a FirStar (now U.S. Bank) bank there, so I stopped in and was told that a Peoples Bank headquartered in Mt. Gilead had opened in Marengo in the 70s. I carried on north to Mt.

Gilead and consulted the Morrow County directories in the genealogy library. In the 1972 directory, the Peoples Bank had an advertisement listing banks in Mount Gilead and Cardington. In the 1974 directory, the listing expanded to include Marengo. EK $8

The piece is mostly red (all red on the reverse), with a single white circle in the middle of the obverse. In the top center of the circle is the company logo, a red circle with a black parallelogram through the middle of it, with words in white letters: in the red circle] The/ [in the black parallelogram] Peoples Savings/ [back in the red circle] Bank. Then underneath the logo at the bottom in black letters, curving to match the white circle: Martins Ferry, Ohio/ Phone 633-3151. VN told me he thought this was from Massillon. 227 3rd St. N.W. is indeed a valid address in Massillon, Ohio, right downtown, although in the 1957 greater Canton cross directory, Nehi Bottling Co. is listed at this address. The use of the N.W. designation is not all that uncommon, I found five other examples without looking too hard. Peoples Coal Co. was listed in Massillon in the 1947 Ohio D & B. Because the name matches exactly (Co. and Peoples in particular could have variations), and because of the address, I think it is almost certain this piece was indeed from Massillon. [ ] OH-MID-LE-10. 1947, H. Lesourdsville Lake/ Miami Valley's Chosen Playground// Middletown, Ohio\\ KMANGB/ IBGL. Lesourdsville Lake was an amusement park that opened in 1922. By 1947, it was a pretty big operation. The opening of Cincinnati's Kings Island Theme Park in 1972 (see, (OH)-(KIN)-KI-10) just a few miles down the road cut substantially into the park's business. In 1978, it changed its name to Americana Amusement Park. There was a huge electrical fire in the grand ballroom that caused $5 million in damage in 1990 and in December of that year the park ownership was in Chapter 11 bankruptcy proceedings. The park was sold out of bankruptcy in 1991 and sold again in 1996. The owners did not open the park for the 2000 season and sold it again in January 2001. It is not yet known whether the park will reopen in 2001. There was a small series of amusement park 1947 horseshoe shaped encased cents, which includes in addition to this piece: NY-JAM-CE-10 for Celoron Park, Jamestown; NY-SBR-DR-10 for Dreamland Park in Sea Breeze (Rochester); NY-(CAN)-RO-10 for Roseland Park playground of the Finger Lakes; and PA-HER-HE-10 for Hershey Park, "Central Pennsylvania's Playground." I believe there are three different reverse dies that go with that obverse die, then comes the 1975D piece with yet a fourth reverse die but also the first different obverse die. The fact that the obverse die lasted so long makes some sense as there probably was only one obverse die, but in subsequent years when the bank decided to make more pieces, the manufacturer pulled out a different stock reverse die, and the customer certainly would not have cared. It is hard to tell from a picture, but I believe that the reverse die of the two 1969D pieces I have seen match the reverse die on this piece. Either that or they are remarkably close. The 1964 version of this piece seems extremely common; Bob sure has sold a lot of these anyway. I

[ ] OH-NEW-PA-12. 1967, RD,35mm. The Park National Bank/ Newark, Ohio// Member/ F.D.I.C\\ KMANGB. The clover stem comes out of the left side of the clover on the -10; it comes out of the bottom on this piece. On the -10, the bar over Never does not quite reach the beginning of the second "E"; on the -12, it reaches almost to the middle of that "E." JL $3

[ ] OH-NEW-PA-14. 1971D, RD,35mm. Same as above except for date and reverse. This third reverse is the only one that is beaded around the cent, and the bar begins well before the Never and ends over the right side of the "V." JL, JR, AA#6,m53 $3

[ ] OH-NEW-PA-16. 1975D, RD,35mm. Same wording as on the above pieces, but the obverse die is different as evidenced by the fact that the first "E" in Member sits over the middle of the "F" and the period below, while on the -10 to -14 pieces, it is directly over the "F." This is yet a fourth reverse, the bar over never is oriented like on the -14 with the bar starting to the left of the "N" and finishing over the right side of the "V" but here the encasement reverse is not beaded as on the -14 and the clover is wider than it is on the -14 (where it is close to a square). The cent is rotated about 110 degrees on this piece, consistent with the relatively random orientation of the cents on the mid to late 70s pieces). EB $5

[ ] OH-NEW-PA-18. 1976D, RD,35mm. A third obverse die. Here, the "E" in Member lies further to the right, over the period between "F" and "D" in FDIC below. I am not 100% certain but it looks as if the rev. die is the same as on the -16. EB $5

Current U.S. Route 40 has been called the "Main Street of America" and the "National Road." Zane Grey was born in nearby Zanesville, Ohio and authored more than 80 adult westerns. My grandfather loved his books. [ ] OH-NOR-ST-10. 1951D, H, holed at top. Standard Rug & [hole] Linoleum Co., Inc./ 4646 Montgomery Rd./ Norwood// "Ohio's Carpet Showcase" [incuse no. at bottom, the number on JR's piece is 615]\\ KMANGB/ IBGL. JR believes that the reason for the number was so that the customer would put the encased on his key ring. Then, if the keys were lost, the finder could just drop them in the mail, they would come to Standard Rug and Linoleum at the address on the encasement and could be matched with the number code and the customer notified.

However, I would think that there would be some indication on the encased about this if that was the idea (like on hotel keys). There is such an indication on OH-TOL-WT-12, which refers to Ohio's key station. Another indication that the number is to help identify returned keys is if the piece says "return to" on it. See, e.g., OH-CIN-HI-20 or GA-ATL0WA-10 (a 1948S piece for Radio Station WAGA in Atlanta that says "If Found Return to," and has a 4 digit incuse no. struck in after "No." at the bottom). Indeed, I have a New Jersey 1955 piece (Peoples Trust Co. of Bergen County, Hasbrouck Heights) with a number punched in it that specifically says, "Reward for Return With Lost Keys." Also, I have a 1948S piece for Alliance Savings (a maverick positively attributed by address to Chicago) which says, "Drop in Mail Box," on it, which must also be a key finder.

In any case, this cannot be true on the pieces that are not holed, like OH-TOL-LO-10 and the Newark (NJ) Ledger pieces. I think those pieces were used as a kind of lottery, for a prize. This should also be true for OH-FIN-FI-10 which informs holders to hang on to the piece until July 1963 as it may be lucky. JR $12

[ ] (OH)-(OTT)-OT-10. 1905, RD,35mm. Ottawa Fair/ [six dots and five dashes] [flower stem like design on each side of the cent]// October/ Every Year\\ KMANGB. There is a story on the Internet posted about life in the 30s, and this person from Lima Ohio always attended the Ottawa Fair, also called the Putnam County Fair, which always was in October. That made it the latest of the county fairs, and matches the unusual October date on this piece. The Putnam County fair posting on the Internet indicates that the fair began in October 1855 in Gilboa, and moved a couple times until it found its permanent spot in Ottawa in 1859. It continued each year there in October until it was moved up to September, likely for weather related reasons, in the mid 1950s. In 1965, it moved to its current July date. I bought this piece from David Lettau who bought it from Michael Kolman who had attributed it to Ottawa Ohio. While that is not quite enough to make this a verified piece, it is strongly leaning toward Ottawa, Ohio. An eBay seller from Newton, Iowa attributed it to Ottawa, Illinois because it was found there. There is also an Ottawa county in Ohio that has a fair that in 2007 was in October. JL $50

[ ] (OH)-(RAV)-EV-10. 1950D or 1950S, RD,35mm. Less Than 1¢ a Day/ to Feed// The Evenflo Way\\ KMAYWHGL. Evenflo is still in business in 2001, and here is what I learned from the Evenflo Company, Inc. website. What is now Evenflo's Feeding Division was incorporated in 1920 as the Pyramid Rubber Company in Ravenna, Ohio. The company's first product was infant feeding equipment. In 1935, Evenflo patented its SURE SEAL ring, which firmly secured the nipple to the bottle. Thus, the one cent a day cost referred to on this piece must have been the cost of the bottles and nipples, not the cost of the formula. A second

manufacturing plant was opened in Ravenna in the late 1940s. It was not until 1957, after this piece came out, that a third US plant was opened in Tionesta, Pennsylvania and Pyramid began to diversify into other businesses, such as children's books and sporting goods. The company eventually became the Questor Corp. and moved its headquarters in 1974 from Ravenna to its current location in Piqua, Ohio. CW; JL, EB $10

[ ] OH-SAL-FA-10. 1946, RD,35mm, holed at bottom. Farmers National Bank/ Salem, Ohio/ 1846 1946// A Century of Progress\\ KMAYWHGL. This is a fairly common piece. On this piece, the encasement is oriented like a Canadian coin and not an American coin. Bryan Ryker speculated in an article in the Casement that this is to allow the hole at the bottom of the obverse to be inside the clover on the reverse side instead of in the inscription, and I am certain that he is right on that point. The unusual orientation of obverse and reverse on this piece allows the hole to avoid any of the lettering. It does make the cent obverse upside down on the reverse side of the encasement. [ ] (OH)-SAL-FA-14. 1967, H, holed at bottom. New East Side Office/ Farmer's Nat'l Bank// Salem/ "Red Carpet" [hole] Service\\ KMANGB/ IBGL. This is a fairly common piece, and I had originally added it to the Ohio catalog in Salem without any inquiry because of the two earlier Farmers National Bank pieces from Salem Ohio. Then in February 2001, this piece was listed for sale in NTCA's Talkin' Tokens and attributed to Salem, Oregon. That caused me to do some checking. I found out that the Farmer's National Bank was still in Salem, but it was not the same Farmer's National Bank that had been founded in 1846. Instead, it was merely a branch of the Farmer's National Bank of Canfield. The original Farmer's National Bank was no longer going by that name as it had been acquired by Bank One. I also checked with the Salem Public Library, who checked the 1967 Salem City Directory for me and found the slogan, "Red Carpet Service," in the listing for the Farmer's National Bank, along with an address for "our New East Side office at 2303 E. State St." It is not all that often that you find a listing that matches so completely and that verifies the piece to Salem, Ohio, not Salem Oregon. JL, JR, RC, EB, NTCA 2/01, at 36, lot 416 $5

The Mullins Manufacturing Corp. was founded in Salem, Ohio by William H. Mullins, who died in 1932 at the age of 79. The Mullins were Salem's first family. Youngstown Kitchens was a complete kitchen design including sink and cabinets, made of metal and topped with porcelain. The units were manufactured in Salem. The Mullins Manufacturing Corp. was bought by the American Radiator & Standard Sanitary Corp. and merged into that corporation on January 30, 1956. After several name changes, the company is today named American Standard Inc. and is headquartered in New Jersey. According to the Salem Public Library, American Standard still has a plant in Salem, manufacturing toilets. However, it no longer makes kitchen units and the old Mullins building is no longer in use. The Mullins Mfg. Corp. is listed under Salem in the 1947 Ohio Dun & Bradstreet, and it has the best credit rating possible, AA, A1. This piece is fairly common, but also desirable. Introduction to the Souvenir of Cedar Point Series

Cedar Point is one of the oldest currently operated amusement parks in America. It opened in July 1870 and is still going strong today. In 1913, near the time many of the first souvenir encased pieces were being made, Knute Rockne worked as a lifeguard on the Cedar Point Beach.

Without any points of reference, it is hard to be sure that these are the same dies, but they seem to be. The "E" of Cedar is closer to the "D" than to the "C." There are twelve notches in the horseshoe on the reverse of both pieces, with the leftmost just to the left of the "K" in Keep. [ ] OH-SPR-SA-14. 1953D, RD,35mm. The Savings Society// Springfield, Ohio\\ KMANGB. Same words as on the above pieces, slightly different obverse die than the -10. The letters on the obverse of this piece are slightly smaller than on the -SA-10. On this piece, the words "The Savings Society" take up the top half of the encasement, on the 1949 piece, they take up 60-65% or so. This is a different reverse die than the -10 as well, although the differences are very minute; it is only in the clover that I can tell any difference. On the -10, there is only a very slight indentation where the two clovers on the same side come together; on this piece, the indention is deeper. Also, the stem on the -10 piece bends fairly sharply (about 45 degrees) to the right at its very end, on this version, the stem curves to the right JL, EB, JR, RC, SA#54,1654 $6

[ ] (OH)-(TOL)-EH-10. 1918, RD,35mm. Your Money is Safe in Real Estate/ [two very small stars]// The E.H. Close Realty Co.\\ KMANGB. E.H. Close's biography was posted on the Internet at the Woodlawn Cemetery Necrology site. Elmer Harry Close was born in 1875, and attended the University of Michigan. In 1909, he started the E.H. Close Realty Company, one of the largest realty companies to have its headquarters in Toledo. He died in 1924 of heart trouble while vacationing in the Thousand Islands in upstate New York. The Village of Ottawa Hills, Ohio website (www.ottawa-hills.org) credits the E.H. Close Realty Company with the development of Ottawa Hills in 1915. E.H. Close himself lived in plat 1, in one of the first homes built in the Village, which was a high class enclave of Toledo. There is another reference to an E.H. Close Realty Company on the Internet -- a "company store and garage" building was completed at 734 Main Street in Buffalo, N.Y. in 1923. The New York DOS records indicate that the E.H. Close Realty Co. was an Ohio corporation that qualified to do business in New York on June 27, 1919. My guess is that the Toledo E.H. Close Realty Co. had a project in Buffalo, and so qualified to do business there. JL, JSt. $8

[ ] (OH)-(TOL)-EH-12. 1922D, RD, 35mm. The words are the same as -10 but this is a slightly different die. The die cutter came very close to duplicating the -10 but the two dies have very slight differences. The most noticeable is that the "T" and "Y" in Realty are clearly separated on this piece, while the tops touch on the -10. In addition, if you place a ruler vertically up the "E" in E.H. on this piece, the top of the ruler will cross between the words Real and Estate. If you do the same on the -10 piece, the top will be between the "E" and "A" in Real. Do the same with the "L" in Realty on this piece and the top will be at the "N" in Money. On the -10, it will be at the left side of the "M." I cannot see any difference between the reverse dies. Could this piece with 1922 cent have been issued because of the realty company's move into Buffalo in 1923? JL, JR, AM(116), KK528 $12

This has a very unusual reverse, unique in my experience to this piece, to the OH-TOL-BU-10 and OH-TOL-PA-20, all Toledo pieces, and also a maverick 1948S piece for United Taxi. It has a six pointed star taking up the entire reverse, with the cent acting as the circle in the middle. There are six things between the points of the star. At the top are the only words on the piece, "Good" and "Luck." To the left of the cent is a wishbone and to the right a horseshoe. There is a clover to the bottom left of the cent and a smaller version of the six pointed star with a circle in the middle to the lower right. I wonder if this piece was made by the same people who made the KMF---GL reverse, as that piece, like this one, sometimes comes with the same dies and cents in the late 40s and early 50s (see OH-TOL-MA-20). [ ] OH-TOL-JI-10. 1948D, RD,35mm. Jim White/ Chevrolet Co.// 1301 Monroe St./ Toledo, Ohio\\ KMANGB.. Jim White Chevrolet is still in business in Sylvania Ohio in 1999, having moved further west on Monroe to the corner of Alexis and Monroe in the early 1980s. The dealership is now called Dave White Chevrolet Inc. and is operated by Dave White, Jr., Jim's grandson. The reason it is fairly rare that the same Chevy dealerships that issued encased in the 1947/48 promotion are still in business today is that most dealerships are owned by individuals and named after those individual owners. The owners of the dealerships in the late 40s are no longer with us. While this piece was known due to the ACL listings from long ago, the first time I ever saw it was when one came on for sale on eBay in September 2018, while I was on vacation in Central and Eastern Europe. [ ] OH-TOL-LO-10. 1948, RD,35mm. Lownsbury Motor Sales Co./ 421-27 Main St.// Toledo, O./ Phone. TA 2445-6-7\\ KMANGB. This piece was listed in the June 1990 Tams

Journal article as a Chevy piece, but then not in the ACL listings. I did not see the piece until it come on for sale on eBay in March, 2004. I do not know why it was delisted. My relatives told me that Lownsbury was always a Chevy dealer on the east side of Toledo's downtown. Front street runs parallel to the Maumee River on the east side; Summit street (see the Osterman & Levey pieces) is its equivalent on the west side. Main Street runs east west and intersects with Front Street. Lownsbury did not move far when he moved from this 421 Main Street address to 801 Front Street on the next piece, which does identify him as a Chevy dealer. My uncle remembers going to the east side to apply for his first driver's license in 1937, and Lownsbury was there at the time selling Chevies. Lownsbury moved out to the far west side of Toledo in the late 1950s or early 1960s and went out of business in the 1990s. JL $20

[ ] OH-TOL-LO-12. 1950, RD,32mm. Lownsbury Chevrolet Co.,/ 801 Front St. Toledo, Ohio// [four or five digit lucky number at bottom, incuse in a bar]\\ KMAYWHGL. All or almost all of these pieces have the cent obverse oriented upside down to the reverse side of the encasement, contrary to the orientation of most encased. This piece is extremely common, appearing often in auction catalogs and on eBay; they must have made quite a lot of them. However, it is still desirable due to the fact that it is a lucky number piece and a Chevrolet dealer, even if the piece came out two years after the Chevrolet series and so is not a Chevy series piece. A Toledo "Lownsbury" piece at 801 Front St. was originally listed in the February 1989 article in the TAMS Journal. I suspect that was a reference to this 1950 piece and that the piece was not listed as a Chevy piece in the ACL listings because it is not a 1947-48 piece. JL, AA#9,m7 $6

[ ] OH-TOL-MA-10. 1938, H. Don't Hope and Sigh/ Come and Buy/ Leo Marks// Diamonds, Jewelry/ and Glasses on Credit/ 508 Adams St., Toledo, Ohio\\ KMANGB/ IBGL. My relatives think that Marks is still in business in at least one location. They are right, there is still a Leo Marks Jewelry store in Toledo at 3301 West Central in year 2000, 61 odd years after this piece was made. He once had three locations. There are pieces similar to this series for Leo Marks Jewelers in Adrian, Michigan. JL, BS#51,55 $12

[ ] OH-TOL-MA-12. 1939, H. Same words and line orientation as on the 1938, -10, and nearly the same obverse die, but there are slight differences. On the -10, the "Y" of Buy points down to the left leg of the "K" in Marks. On this piece, it points down to the middle of the "K." On this piece, the "T" in Credit points to the far right side of the final "O" in Ohio. On the -10, the final "O" is under the right side of the "D." Looks like the same reverse. GArfield was a Toledo phone exchange. Edward W. Mann is listed in my 1947 Ohio Dun & Bradstreet under Toledo in the Rest. & Liq. business. In my 1969 Polk Toledo directory, Edw. W. Mann is shown as retired and the business at 3269 Monroe St. is Allie's Nite Club. The 3269 address on Monroe St. is a pretty high number, and so fairly unusual. [ ] (OH)-(TOL)-OS-10. 1935, RD,35mm. Osterman & Levey Inc.// [five sided star with an open center star each side] Jewelers/ 404 Summit St.\\ LPPP/ IBGL. This is somewhat of an unusual reverse. My mother's wedding ring was purchased from Osterman & Levey in 1948 (three years before I was born) and so was my cousin's, sometime later. My mother knew of my interest in Ostermans and so when she was cleaning out her memory box, she gave me my grandmother's bifocals in a very old case labeled "Osterman & Levey/ 404 Summit St., Toledo, Ohio." A long time ago, jewelers were often also optometrists. Billy Osterman started the business and his son, Billy Osterman Jr. continued it. He sold out in the 1980s. There are still three Osterman Jewelry stores in Toledo in 2000. JL, EB $15

[ ] (OH)-(TOL)-OS-12. 1937, RD, 35mm. Same words as on the -14, 1945, but JR reports that the reverse on this piece is the "older style" KMAYWHGL, and that this piece has a beaded edge on both sides. I subsequently acquired this piece, and the differences between this and the -14 are very slight, both sides, with all lettering very close, but still noticeable. On this obverse, the "E" in Osterman is raised above both the "T" and "R" along side it; which is not true of the -14.JL, JR, EB $15

[ ] (OH)-(TOL)-OS-14. 1945. RD,35mm. Osterman & Levey// Kredit Jewelers/ Next to Tiedtke's\\ KMAYWHGL. Both Osterman and Tiedtke's were on Summit Street, on the west bank of the Maumee River. [ ] OH-TOL-PA-20. 1949, RD,35mm. "Cop" Palmer/ The Typewriter Man// Sales & Service/ MA 4721\\ Good Luck. This is the same reverse where the star takes up the entire reverse as on OH-TOL-BU-10 and OH-TOL-HA-20. See the description of the -HA-20 piece for the description of this reverse. My uncle reports that this business was downtown on Summit Street in the late 1940s and moved a bit west to the Monroe, Detroit Street area. JR, EB $14

[ ] OH-TOL-PE-10. 1957D, RD,32mm. People's Savings Association/ 337 Huron St. Toledo, Ohio// 70th/ Anniversary\\ KMANGB. This piece has the SR4 reverse as reported by BR in his Fankhauser catalog, and so was made by Osborne. The SR4 reverse has a shadow "N" and "D" (in And on the reverse) to the west of the real "N" and "D." The die maker must have first punched the "N" and "D" too close to the "A" and tried again. [ ] OH-TOL-SS-10. 1948, RD,35mm, holed at bottom. S.S. Wayne/ Excursion Boat// Cocktail Lounge & Dancing/ Toledo [hole] Ohio\\ KMANGB. I had listed this piece in a earlier version of this catalog, reported by JR, whose computer listings did not include city and state. I took it off temporarily when I discovered there is a 1946 piece for the S.S. Wayne, Excursion Boat, Duluth Superior, thinking that somehow the "maverick" from the two Lake Superior towns had been erroneously reported as a Toledo piece. But no, once I obtained this piece, I found that it does indeed have Toledo, Ohio on it. Thus, there are two different S.S. Wayne pieces, from areas very far apart. Perhaps the S.S. Wayne excursion boat was all over the Great Lakes? JL, EB, JR $15

In my 1958 Toledo phone directory, the Sylvania Savings Bank is listed with a "Reynolds Corners Office" at 5133 Dorr St. I called the Reynolds Corner branch library and the kind librarian explained that Reynolds Corner was not its own city, but rather a neighborhood in Toledo. I accept this as a verified piece because of the above information and in addition, my uncle remembered that there was a drive in Sylvania Bank in this area at Door and Reynolds. JL $5

[ ] (OH)-(TOL)-TI-12. 1959D, or 1963D, H. Tiedtke's/ Lucky Days// 1965\\ KMANGB/ IBGL. It looks like there must have been at least a 1964 piece too and that circulated cents were likely used, with this piece coming with 1959 dated cent and the 1966 piece with 1952. EB; JL, EB $8

[ ] (OH)-(TOL)-TI-14. 1952D, H. Tiedtke's/ Lucky Days// 1966\\ KMANGB/ IBGL. I was not the buyer of this eBay piece: someone with the handle "Tiedtke" was at $12.00. EB $8

[ ] (OH)-(TOL)-TO-10. 1910, teddy bear shape. High/ Grade/ Bicycles/ Toledo Sporting Goods Co./ 342 Superior St./ [star in each corner]\\ Bear Us in Mind. ACE member Bob Mitchell reported on this piece in Vol. 1, No. 2 of the Casement, p. 9, November, 1995. It was part of a list of six known teddy bear encasements. [ ] (OH)-TOL-TO-30. 1958D, 1959D, 1961D, 1962D, 1963D, 1964, 1964D or 1967, H, gilt brass, holed at bottom. The Toledo Trust Co./ Member F.D.I.C.// Toledo's Bank/ Since 1868\\ KMANGB/ IBGL. This is a very common piece but the market gives the brass pieces a higher price. It often comes tarnished or with other problems on the brass, if so the price should be discounted. This one was made for a long time or at one time with a variety of cents; all the pieces I have seen have the same obverse dies. It does not seem likely that one die could have made all these pieces for all these years. However, I have not seen nearly all of the various dates. I would suspect lightly circulated cents, but most of these seem to come uncirculated. Perhaps someone had several roll sets of late 50s and 60s uncirculated cents and used them in these pieces. DM, JL, KK384; JL, EB, JSt, BS#27,240, BS#42,82; JL; JL, BS#53,745; JL, PCu; CD; JL, VN $8, although I saw one realize $20

My grandfather banked at the Toledo Trust and my great uncle (both on my father's side) worked there as an attorney in the trust department. Bank merger mania finally got Toledo Trust too and it became a part of the Key Bank empire.

[ ] (OH)-TOL-TO-32. 1964, 1965, H, gilt brass, holed at bottom. Same words, obverse and reverse, as on the -30, but a different reverse die. On the -30, the "L" in Luck points up to the middle of the "N" in Bring above. On this piece, it points to the left side of the "N." The left top of the wishbone is much longer on the -30, where it extends almost to the clover. On this piece, it does go past the "D" in And but stops about an 1/8 of an inch from the clover. Finally, the KMANGB letters on this piece are much larger, taking up all the room in the horseshoe. On the -30, there is noticeable room both above and below the letters. I have a 1964 piece with the -30 rev. and CD's 1964D piece also has the -30 reverse. It appears that this die was used with only a few of the pieces. I have not seen the 1965 piece, but have put it here temporarily. EB, JL, JR, BS#47,48, BS#44,124, BS#40,523; BS#54,543 $8

[ ] (OH)-(TOL)-TO-34. 1968D, H, holed at bottom. Same obv. words as on the above -30 and -32 pieces, rev. though is KMAHGL/ IBGL and thus obviously different. Different obverse die from the other Toledo Trust pieces; here the "T" in Toledo points down between the "EM" in Member below, on the prior pieces it points to the first "M." MP $10

JR said he checked and 1959 was the 21st anniversary and 1958 the 20th. Therefore, the 1958 piece was made with a cent one year earlier, probably because the piece was made in early 1958 before 1958 cents were out. The use of the number on this piece may have been to identify lost keys, as evidenced by the fact that the word "Key" is in all capitals. See, OH-NOR-ST-10 for a discussion of the key return pieces. [ ] OH-TOL-YM-10. 1967, H, holed at bottom. 20th Annual YM - YW/ Glass City Invitational/ Toledo, Ohio/ 1948 [hole] 1968\\ KMANGB/ IBGL. The YM - YW must be a reference to the YMCA, YWCA and I would think this was a swim meet. There was an article in the February 8, 1969 Toledo Blade about the swim Invitational, being held at the "Central Y and YWCA." The January 18, 1982 issue of that same newspaper noted that that year's competition was the 33rd annual competition, which would make either late 1948 or very early 1949 the start year, matching the information on this piece. In an earlier draft of this catalog, the H.L. Green encased was listed under Uhrichsville, because I had a report that there was an H.L. Green store there. The H.L. [ ] OH-VAN-BE-10. 1951D, advertising thermometer, mirror, lucky cent and clover, rectangular, 139mm x 304mm. This piece is quite a bit wider and somewhat longer than the other advertising thermometer mirrors (1948-1951) that I have seen and heard of. It has a green border and says "Keep Me" at the top in the green border. Other than the green border, the entire surface is a mirror, with the clover, cent, thermometer and advertising card cut out. There is a yellow horseshoe painted in the top part of the mirror with two cut out circles midway in the legs of the horseshoe -- in the left circle, there is a four leaf clover, and in the right circle is the 1951D cent. The words painted above the circles are: "I Bring You Good Luck" in the left and "You'll Never Be Broke" in the right. The thermometer is below the horseshoe, with a green design painted in the mirror beside it. Under the thermometer is the insert: Revington & Knittle/ Auctioneer and Real Estate Brokers/ Van Wert, Ohio. Wooster is in Wayne County and Millersburg is in Holmes County, the next county South. I think the likely explanation for

the wide variety of dates with the same dies is that circulated cents were used – all these from the 1941 to the 1956D are from the same dies. EB; CW; JL; RC; EB; CW, AA#6,m77; RC $5

This was an unlisted and unattributed piece when VN brought it to my attention in December 2010. BP found a reference in the Railroad Trademan's Journal to this establishment at this address in Youngstown. I believe it was a directory so that the trainmen knew where to do to find things to buy, like clothing, when they were in strange towns. I acuaired my piece with false information. When noted Chicago exonumist Rich Harzog died in December 2017, Steve Hayden put his Chicago collection for sale on eBay. This piece was included, attributed to Chicago. There was indeed a "Rosenbaum Bros." then in Chicago, but it was a "cattle and grain commission house," and its address was 2229 Calumet Ave. And, there is no East Federal Street in Chicago, although there is a S. In the 1960 D & B, Youngstown was the city where this company was listed. It had the highest financial ability and was listed in the businesses of Slag Producer, gravel, sandstone, magnesite and iron ore. The Osborne orders clinch the attribution. This is AM(277) and was originally mistakenly identified to Columbus, Ohio by the ACE Maverick program, but corrected by Duane Feisel. According to a September 9, 2002 article in Indiana Business Magazine, Noblitt-Sparks's move from Indianapolis to Columbus Indiana was a few years after 1919. In 1950, Noblitt-Sparks changed its name to Arvin Industries, Inc., which was a major manufacturer of automobile products, particularly exhaust products. The company merged with Meritor in the late 1990s to form ArvinMeritor, now headquartered in Troy Michigan, although Columbus Indiana operations continue. A call to Arvin in Columbus Indiana verified that they were located in Columbus Indiana when these pieces came out.

The February 1947 issue of Consumer Reports lists the "Bendix Automatic Washing Machine" made by "Bendix Home Appliances, Inc.," South Bend, Indiana. There is a 1942 legal case describing Bendix Home Appliances, Inc. as a Delaware corporation with principal place of business in South Bend. This is a verified South

Bend piece, not Cincinnati. ACE member Coursel was the first to correctly attribute this piece, in issue 14.

E.J. Arnstine Co., De Soto Plymouth (1946) (NY)-(SYR)-EJ-10

TS found E.J. Arnstine listed in the 1937 Cleveland City directory selling autos at 1950 E. 105th St. and 4001 Euclid. However, in 1944, the E.J. Arnstine Co., Inc. was incorporated as a New York corporation operating in Syracuse. The company was listed with that name in the 1953 Dun & Bradstreet, with a start up date of 1944 listed, and there are no further listings in Cleveland. By 1953, Frank C. Grismar Co. was selling autos at 1950 E. 105th Street. The company is listed on the Internet website of De Soto dealers as from Syracuse. My best guess is that E.J. Arnstine sold cars in Cleveland in the 1930s, but moved to Syracuse and was in operation there when this piece came out in 1946.

Farmers & Merchants Bank, We Solicit Your Patrionage, Prosperity Follows a Savings Account (1907) unknown but some thought It might be Archbold, Ohio

The Farmers & Merchants Bank was founded in Archbold in 1897 and changed its name to Farmers & Merchants State Bank in 1919 and is still there under that name in 2016. An eBay seller supported the attribution to Archbold saying that he got this item as part of a group of tokens mostly from Ohio. But, there are many, many other Farmers & Merchants Banks that were in business in 1907. Two different South Dakota collectors claimed it, one for Yankton, the other for Sioux City. Another eBay seller supported Monticello Florida. There is still a Farmers & Merchants bank in Long Beach California in 2016, founded in 1907.

I have seen the 1958 piece attributed to Cleveland, as the J.L. Goodman Furniture Co. was located here, but I could not match either the anniversary date or the Thomas Mall to Cleveland; there was a Thomas Mall in Phoenix and I have thus also seen these pieces attributed there, but could not match the anniversary date there; finally I found Goodman Jewelers in Madison, Wisconsin founded in 1933 (matches the anniversary, but could not match Thomas Mall). Then the Osborne orders were posted on the Internet by Bryan Ryker and they settled the matter. Goodman's was a grocery store: "Goodman's Wholesale Grocery, Inc." in Tucson, as indicated by OR(10984)

This is BP maverick (1050) with a 1955 cent. The 1953 D & B lists "Harry's Café Tavern" in Canton, but that is not exactly the same as the business referenced on this piece. Fourth Street is indeed a downtown Canton street and Canton does use the N.W. designation after it. However, there is no "2609" listed in my Canton 1957 cross reference directory, it goes from 2542 to 2611.

Hartman's Furniture – Carpets (1954D brass) (IL)-(CHI)-HA-10

There was some thought that Cleveland was a good possibility for this piece as there is a Hartman Furniture Co. listed in the D & Bs to Cleveland around the time this piece came out and the phone number on the piece, BR 8-8300, could be Cleveland's BRoad exchange. However, in the 1957 Cleveland phone directory Hartman (without "'s") Furniture Co. has phone ENdicott 1-1794. The Osborne orders identified this to Chicago, and indeed it was listed in my 1952 Chicago yellow pages with the phone no. on the piece.

This must be a gas station; maybe they did recapping and retreading. The only other cities I can see with 4424 Payne Ave. are Dayton and Minneapolis. Maybe this is a maverick made by Pocahontas, with only the service it provided listed.

Markland L/D. Oct. 12, 1963, Dedication, Ohio River Development (KY)-(WAR)-MA-10

The Markland Dam on the Ohio River was dedicated on October 12, 1963. Although the usual rule is that an owner, including a state, owns to the middle of a waterway that is a boundry, that is not true as to the Ohio River. Because of the immense power of the colony and then state of Virginia, the entire Ohio River was in Virginia, and still is today. Therefore, the Markland Dam is in Kentucky (heir of Virginia) and this piece is properly attributable to the nearest Kentucky town, Warsaw. Because the dam is about 40 miles west of Cincinnati, it is on the Indiana section of the Ohio river and not Ohio in any event. Several tourism websites for Kentucky list Markland Lock and Dam [I assume that is what L/D stands for], Warsaw, Kentucky.

I assume "JP" is Justice of the Peace (or magistrate), so that this Joseph Meier was in the court system in Newport.

But this piece is about the Overland Haller Corp., a seller of the automobiles and many references in Philadelphia newspapers from the 1920s show that it was located at 919 N. Broad in Phily. PReston is a Philadelphia and not a Toledo phone exchange. So this piece is correctly attributed to Phily.

Because of the Walnut Street address, I have seen some incorrect attributions of this piece to Cincinnati.

Sherman's Clothes, Sherman's Clothes (1964D) maybe Cleveland maybe not

Why couldn't the makers of this piece have given us more information instead of just repeating "Sherman's Clothes?" There was a Sherman's $10 Stores selling clothes quite some time ago at 922 Calhoun St. Fort Wayne, but it was not listed in the 1960 D & B. The Columbus eBay seller of this piece said he remembered "Sherman's Clothes" in Cleveland and indeed a google book search establishes that S.N. Mendelson's Co. in Cleveland made Sherman's Clothes. That company is listed in the 1960 D & B and in the 1953 and 1957 Cleveland directories at 6103 Euclid. So it is a good possibility. However, another book on google books has a picture of downtown Rockford Illinois in 1963 showing a store with a sign, "Sherman's Clothes." So Rockford is just as good a possibility as Cleveland. Unfortunately, this piece is not in the Osborne orders. So for now, I'm not going to list it in the Ohio catalog – it is a possible but unverified Cleveland piece that Rockford has just as good a claim to.

West Side Federal Savings & Loan Association 1950D	unknown

An eBay Cincinnati seller suggested that this was a Cincinnati bank. That may have been so but there are a lot of West Side Federal Savings & Loan Associations in the country. For example, there was one on the west side of Cleveland, that became a federal institution in 1948 and took this exact name in that year. Consequently, I am not sure this will ever be verified. The ECI Wrangler maverick program (no. 26) has this listed, per George Breeding, to New York City. According to the scripophily website, there is a "West Side Federal Savings & Loan Assoc. of NYC." The of NYC is in the name but not on the piece so I am actually pretty doubtful that New York City is right.
